Conscience Consumer Guide:

Out of Poverty Benjamin Powell, 2014-03-17 This book explores how sweatshops provide the best opportunity to workers and the role they play in the process of development

The Difference Makers Sandra Waddock, 2017-09-08 It is not often that we have the opportunity to hear from the early pioneers of a social movement about how it grew and evolved but that is exactly what this book sets out to do The Difference Makers tells the stories of 23 entrepreneurs who have been instrumental in developing corporate responsibility offers an analysis of how CSR has emerged as a key business issue why it has evolved so quickly and the visions of its thought leaders The book examines 23 of the key players who have been instrumental in developing the corporate responsibility movement They include John Ruggie and the Global Compact Allen White and the Global Reporting Initiative John Elkington and SustainAbility Simon Zadek and AccountAbility Alice Tepper Marlin and Social Accountability International Bob Dunn and Business for Social Responsibility and Joan Bavaria and Ceres along with many others The Difference Makers is a history and detailed analysis of how corporate responsibility has emerged as a key political social and business issue why it has evolved so quickly and what the visions of its thought leaders are for the future It is essential reading for academics business people and all those interested in the future of the corporation

The International Handbook on Environmental Technology Management Dora Marinova, David Annandale, John Phillimore, 2008-01-01 This is an excellent textbook suitable as a core text for environmental engineers and environmental scientists but equally it should in my opinion be compulsory reading for all researchers practitioners and policy makers regardless of their discipline because it has relevance for all In fact the book is so lively and understandable that everyone and anyone could and should read it Clearly written by a team of recognised environmental authors drawn from around the world it guides the reader through current thinking on the tools and techniques industry As an academic it is a delight to find a book to recommend that I know students will enjoy and one which addresses so many different elements of a diversity of university courses while covering the most important areas of environmental technology and management I am certainly using it to enhance and update the content of some of my own lectures Susan Haile International Journal of Sustainable Engineering This substantial collection draws together a very wide variety of literatures and practices I would expect this book to be a popular purchase by academic libraries principally as a core text R D Management This stunning Handbook is an excellent tool for environmental manager and environmental officer alike It is brimful of ideas case studies and methodologies which stimulate continuous improvement thinking and help train staff to implement sustainability and environmental management concepts Highly recommended Eagle Bulletin This important Handbook is the first comprehensive account that brings together recent developments in the three related fields of environmental technology environmental management and technology management With contributions from more than 55 outstanding authors representing ten countries and five continents the reader is provided with a vast range of insightful perspectives on the latest

industry and policy issues With the aid of numerous case studies leading experts reflect on significant changes in the use of technology and management practices witnessed in the last decade Within this Handbook the authors discuss in detail eco modernization and technology transformation environmental technology management in business practices measuring environmental technology management case studies in new technologies for the environment environmental technology management and the future The International Handbook on Environmental Technology Management has a broad audience including researchers practitioners policymakers and students in the fields of sustainability and environmental science
