Considering Pragma Dialectics:

Considering Pragma-Dialectics Peter Houtlosser, Agnes van Rees, 2014-04-04 *Considering Pragma Dialectics* honors the monumental contributions of one of the foremost international figures in current argumentation scholarship Frans van Eemeren. The volume presents the research efforts of his colleagues and addresses how their work relates to the pragma dialectical theory of argumentation with which van Eemeren's name is so intimately connected. This tribute serves to highlight the varied approaches to the study of argumentation and is destined to inspire researchers to advance scholarship in the field far into the future. Replete with contributions from highly esteemed academics in argumentation study, chapters in this volume address such topics as Pragma dialectic versus epistemic theories of arguing and arguments, Pragma dialectics and self advocacy in physician patient interactions, The pragma dialectical analysis of the ad hominem family, Rhetoric dialectic and the functions of argument and The semantics of reasonableness. As an exceptional volume and a fitting tribute, this work will be of interest to all argumentation scholars considering the astute insights and scholarly legacy of Frans van Eemeren. Keeping in Touch With Pragma-Dialectics Eveline T. Feteris, Bart Garssen, A. Francisca Snoeck

Henkemans, 2011-01-01 *Keeping in touch with Pragma Dialectics* is written to honor Frans van Eemeren and his work in the field of argumentation theory on the occasion of his retirement. The volume contains 17 contributions from teams of authors consisting of a combination of a pragma dialectician and one or two researchers with a different background in the field of argumentation. In this volume, comparisons between the pragma dialectical approach and other approaches are made, aspects of strategic maneuvering such as the use of presentational techniques, adaptation to the audience and the selection of topics are dealt with, and the influence of specific institutional contexts such as politics, medicine and internet forums on strategic maneuvering are discussed. *Pattern Recognition and Artificial Intelligence* Fausto Pedro García Márquez, Alaa Ali

Hameed, Akhtar Jamil, 2025-10-18 This book presents a diverse collection of cutting edge research from the 6th Mediterranean Conference on Pattern Recognition and Artificial Intelligence MedPRAI24. Readers will find studies on AI in social sciences, literature and governance alongside technical innovations in image processing, speech analysis and deep learning. With interdisciplinary contributions spanning engineering, humanities and political sciences, this volume provides valuable insights into the evolving role of artificial intelligence across multiple domains. **Argumentation across Communities of Practice** Cornelia Ilie, Giuliana

Garzone, 2017-11-15 Featuring multidisciplinary and transcultural investigations, this volume showcases state of the art scholarship about the impact of argumentation based discourses and field specific argumentation practices in a wide range of communities of practice belonging to the media, social, legal and political spheres. The investigations make use of integrative, wide ranging theoretical perspectives and empirical research methodologies with a focus on argumentation strategies in real

life environments both private and public and in constantly growing virtual environments This book brings together linguists argumentation scholars philosophers and communication specialists who convincingly show how interpersonal and or intergroup interactions shape challenge or change the argumentative practices of users what argumentation skills and strategies become critical and consequential how argumentative discourse contexts may stimulate or prevent critical reflection and debate and what are the wider implications at personal institutional and societal levels Reaching beyond the boundaries of linguistics and argumentation sciences this book should be a valuable resource for researchers as well as practitioners in the fields of pragmatic linguistics argumentation studies rhetoric discourse analysis political sciences and media studies

Dialogue and Rhetoric Edda Weigand, 2008-10-09 The volume deals with the relationship between dialogue and rhetoric The actual state of the art in dialogue analysis is characterized by a tendency to overcome the distinction between competence and performance and to combine components from both sides of the dichotomy in a way which includes rules as well as inferences The same is true of rhetoric the guidelines proposed here no longer state that rationality and persuasion are mutually exclusive but suggest that they interact in what might be called the mixed game The concept of a dialogic rhetoric thus poses the question of how to integrate the different voices Part I of the volume assembles several rhetorical paradigms which are applied to real life performance Part II on rhetoric in the mixed game contains a selection of papers which illustrate the interaction of various components The Round Table discussion in Part III brings proponents of different paradigms face to face with each other and shows how they justify their own positions and present arguments against rival paradigms

Inference in Argumentation Eddo Rigotti,Sara Greco,2018-12-10 This book investigates the role of inference in argumentation considering how arguments support standpoints on the basis of different loci The authors propose and illustrate a model for the analysis of the standpoint argument connection called Argumentum Model of Topics AMT A prominent feature of the AMT is that it distinguishes within each and every single argumentation between an inferential procedural component on which the reasoning process is based and a material contextual component which anchors the argument in the interlocutors cultural and factual common ground The AMT explains how these components differ and how they are intertwined within each single argument This model is introduced in Part II of the book following a careful reconstruction of the enormously rich tradition of studies on inference in argumentation from the antiquity to contemporary authors without neglecting medieval and post medieval contributions The AMT is a contemporary model grounded in a dialogue with such tradition whose crucial aspects are illuminated in this book Argumentation and Health Sara Rubinelli,A.
