Current Law Index, 1999 The Emergence of Brand-Name Capitalism in Late Colonial India Douglas E. Haynes, 2022-09-22 This book examines the

emergence of professional advertising in western India during the interwar period It explores the ways in which global manufacturers advanced a brand name capitalism among the Indian middle class by promoting the sale of global commodities during the 1920s and 1930s a time when advertising was first introduced in India as a profession and underwent critical transformations Analysing the cultural strategies both verbal and visual used by foreign businesses in their advertisements to capture urban consumers Haynes argues that the promoters of various commodities crystalized their campaigns around principles of modern conjugality He also highlights the limitations of brand name capitalism during this period examining both its inability to cultivate markets in the countryside or among the urban poor and its failure to secure middle class customers With numerous examples of illustrated advertisements taken from Indian newspapers the book discusses campaigns for male sex tonics and women s medicines hot drinks such as Ovaltine and Horlicks soaps such as Lifebuoy Lux and Sunlight cooking mediums such as Dalda and electrical household technologies By examining the formation of brand name capitalism and two key structures that accompanied it the advertising agency and the field of professional advertising this book sheds new light on the global consumer economy in interwar India and places developments in South Asia into a larger global history of consumer capitalism *Law Book Guide* ,1972 **Who's Who in Science and**
