

BRANDS THAT MAKE THE BEST CARS

We rank automakers from best to worst on their scores and survey results.

by JEFF S. KRAFT/CR

How we made the rankings: The Report based its automaker ranking on four key factors: (1) our tests, including owner satisfaction and safety; (2) the national survey we sent out twice through more than 30,000 vehicles; (3) vehicle reliability ratings as based on problems reported by nationwide subscribers; (4) models from a CR's Award-Winning Group. Based on subscriber feedback we added to our list 10 models we had in our survey that brought the most criticism from our subscribers. Finally, we added to our list 10 models we had in our survey that brought the most criticism from our subscribers. Finally, we added to our list 10 models we had in our survey that brought the most criticism from our subscribers.

and vehicle ownership of its automakers can show you if the right direction when making a new car purchase. These ratings are based on the average Overall Score, a combination of our most recent predicted reliability and owner satisfaction data, and safety for

all of the models from each automaker. The top five brands this year are the same ones as 2023, with BMW leading the pack with an 87 score, followed by Subaru (85), Porsche (84), Honda (78), and Lexus (78). This year for both companies is their consistent combination of high

and best owner and very good predicted reliability. Porsche takes the third position with a score of 84. Both Porsche and Cadillac moved up 10 positions this year due to their improved reliability. Keep in mind that even high scoring brands can have some lower performing

models, so be sure to check the ratings (see page 46) for the auto you're considering. This is especially true for bigger brands like Ford and Toyota, which have some models that performed far better than others in our tests. (If the brands CR ranked this year

were recommending every model rated from worst (Jeep, Porsche, Honda, Kia, Mazda, and Audi) Single pick: You can buy and feel more from those companies with confidence. (There are also brands that don't have a single model recommended by CR, including

carefully when buying one of those.) To be included in the brand ranking, CR has to have tested at least two current models from a company. We've tested only one model from Lucid, Polestar, and Ram, so they aren't included this year.
