Monetary and Financial Statistics Manual and Compilation Guide Mr. Jose M Cartas, Artak Harutyunyan, 2017-11-09 This edition of Monetary and Financial Statistics Manual and Compilation Guide Manual updates and merges into one volume methodological and practical aspects of the compilation process of monetary statistics The Manual is aimed at compilers and users of monetary data offering guidance for the collection and analytical presentation of monetary statistics The Manual includes standardized report forms providing countries with a tool for compiling and reporting harmonized data for the central bank other depository corporations and other financial corporations

System of Environmental-Economic Accounting Vereinte Nationen, 2024 The recognition that economies are embedded within and dependent on nature is growing with nature itself being seen as an asset to the economy As the impacts of climate and biodiversity crises become more evident policymakers are seeking robust measurements that integrate environmental and economic data going beyond GDP The System of Environmental Economic Accounting SEEA supports this by measuring the interdependence of the economy and the environment In March 2021 the United Nations Statistical Commission adopted the SEEA Ecosystem Accounting SEEA EA as an international standard for ecosystem accounting This framework presents principles and recommendations for valuing ecosystem services and assets reflecting environmental degradation in balance sheets as a cost to economic growth SEEA EA will inform national policies and international initiatives including the Sustainable Development Goals the Kunming Montreal Global Biodiversity Framework and the United Nations Framework Convention on Climate Change among others

Mexico International Monetary Fund, 2010-10-26 Mexican macroeconomic statistics are in a period of transition as recent laws have strengthened the legal backing and have changed institutional arrangements Mexico is in observance of the Special Data Dissemination Standard meeting the specifications for data coverage periodicity and timeliness and the dissemination of advance release calendars Executive Directors suggest enhancing cross domain cooperation within and among statistical agencies and national accounts government finance and monetary and balance of payments statistics with the purpose of improving their international comparability

Global Debt Dynamics Andreas Antoniadou, Ugo Panizza, 2020-05-21 This comprehensive volume explores debt dynamics and the intensification of debt crises across the globe bringing together several recent but underexplored debt crises from different regional and socioeconomic contexts Using detailed case studies the authors recast the perils of debt based growth in the context of regional global imbalances not to advocate one size fits all reforms but to point to the need for accommodating diversity They examine how current economic developments put developing and developed countries under new strain They also interrogate the opportunities and challenges generated for developing countries by the new development finance landscape and newly re emerged geopolitical tensions The book also explores the inability of existing dominant structures and thinking to effectively manage the multiple facets of the ongoing global debt crisis pointing to responses that exacerbate rather than address

unsustainable debt dynamics The authors illustrate the adverse effects of ad hoc crisis management mechanisms which are not fit for purpose and indicate the negative consequences that existing policies may have for democracy They then put forward a framework for alternative thinking as well as concrete ideas on what needs to be done in response This book will be of great interest to students scholars and professionals in the field of global debt studies It was originally published as a special issue of the online journal Third World Thematics
