

Transmission Identification

When ordering parts for your transmission, it's very important to know what kind of transmission is in your vehicle. The following diagrams will be of assistance in identifying the type of transmission in your Camaro, Firebird, Nova, Impala or Chevrolet/GMC truck. This identification chart can also help you determine whether your transmission is the original type offered with your vehicle when it was new. When you're determining what kind of

transmission you have, also look for codes that will indicate when and where your transmission was produced. These codes can be referenced in books for each specific vehicle which can determine whether or not it's the original factory transmission. If you don't have a reference book on your vehicle, check out our book section of this catalog—they are extremely helpful when it comes to original details and components.
