### Antenna Switch

This setting configures, on a radio-by-radio basis, which antenna to use when docked/ docking station or system. If set to Dock antenna, the default, then the radio will be switched to use the external docking station antenna when docked. If set to System, the radio will continue using the internal system antenna, even when docked. When the system is undocked, the system antennas are used and this option has no effect.

Note: This setting applies to Rugged Docking stations and does not apply to USB Type-C docking stations.
