Official Chicago CIO Trade Union Manual Directory Chicago Industrial Union Council, CIO.,1947 **Manual de bibliografía de la literatura española** José Simón Díaz,1965 **Reappraisals in Renaissance Thought** Charles B. Schmitt, Charles Webster, 2024-10-28 This third collection of Charles Schmitt's articles complements the previous two and consists largely of studies published in the last few years of his life. It therefore contains his mature reflections on central issues in the fields of Renaissance philosophy and science as well as important new research findings. The main subjects are Aristotelianism and Scepticism and the history of medicine and natural philosophy. Some articles assess the place of traditional elements in the work of major scientific innovators such as Galileo or Harvey; others make available new sources of documentation and show the significance of writings others had not deigned to look at. Charles Schmitt's insistence that Renaissance thought should be reconstructed in terms faithful to the value systems of the period also led to an increasing interest in the socio-economic context of philosophical speculation reflected here in the studies on the University of Pisa in the 16th century. Third Series* ,1927 *The Publishers' Circular and Booksellers' Record* ,1925 The Medical Renaissance of the Sixteenth Century A. Wear, R. K. French, I. M. Lonie, 1985-03-07 This book examines the relationship of medicine to those intellectual and social changes which historians call the Renaissance. The contributors describe how the whole range of medicine from practical therapeutics to surgery, anatomy and pharmacy was developing. Some important questions about the nature of medicine as it was taught and practised are raised. These include the continuing vigour of Arabic and scholastic medicine; how this was reconciled with the Renaissance love of all things Greek; and the nature of medicine in different parts of Europe. The chapters are written by acknowledged experts in their subjects and are based on contributions read at a meeting called for the purpose in Cambridge and supported by the Wellcome Trust.
