Leif Fearn, Eric Fearn, 2013-06-26 A critical question in social studies education is not whether teachers develop and teach units of study but what is in the units of study teachers develop and teach Curricular planning and instruction must focus on what we teach in the social studies classroom It is not uncommon for students to experience fine units about the westward movement and exit the fifth grade with little or no geographic literacy Most students leave middle school grades unable to name even one person who made a difference in the history of Indian people in the United States After three to five years of history classes high school students routinely self report that history is boring And it is the rare middle school graduate who knows how to use a free enterprise economy for his or her benefit This book explains the content of nine areas in social studies If teachers know what history biographical studies and the United States Constitution mean for instruction they can increase the probability of better focused content in their social studies instruction The Innovator's Dictionary Christian Buchholz, Benno Aerssen, 2020-10-12 More and more people have to organize or moderate innovation processes creative workshops and design thinking projects and need help when choosing appropriate tools At the same time the number of available methods has virtually exploded in recent years making it difficult to find the most appropriate method This book presents 555 of the most important innovation methods and tools selected and curated by experienced innovation professionals A step by step explanation for each method allows for easy implementation in your own team meeting or workshop Further information on each method such as method results experience insights required innovation skills and numerous illustrations help the reader to select the right instrument and adapt it to their respective goal Whether you are a beginner or a professional the book will help you to select methods quickly and safely Innovation managers and everyone responsible for projects and products will find invaluable help for their work in this dictionary It also offers a Design Thinking reference for all methods as well as a free online method search with various search paths Events around the book Link to a De Gruyter Online Event in which the editors Christian Buchholz and Benno van Aerssen discuss and present the use of tools and innovation methods in workshops meetings and innovation projects The event will be moderated by Joanne Hyland Founding Partner and President of Innovation Group [https://youtu.be/TZNdWiY\\_s2w](https://youtu.be/TZNdWiY_s2w) Munsey's Magazine, 1918
