**Democracy in Practice** S. Rai, R. Johnson, 2014-12-09 This collection makes a compelling case for the importance of studying ceremony and ritual in deepening our understanding of modern democratic parliaments. It reveals through rich case studies that modes of behaviour, the negotiation of political and physical spaces and the creation of specific institutional cultures underpin democracy in practice. *Crafting Parliament in Myanmar's Disciplined Democracy (2011-2021)* Renaud Egretteau, 2022-03-01 In January 2011 parliament was restored in Myanmar after two decades of military rule. Startlingly it began to repeal obsolete laws, scrutinize government expenditures, summon ministers to the floor and discuss the state's annual budget. It also allowed its elected representatives to make public the grievances collected from constituents infuriated at enduring practices of land confiscation, petty corruption and everyday abuses of power. Yet ten years later in February 2021 parliament was shut down again by a coup d'état. What has been learned in the span of a decade of post-junta parliamentary resurgence? How could an elected legislature resurface and function in a country that had only limited experience with parliamentary affairs and representative politics since its independence from British rule? What lessons can be drawn from the Myanmar case for parliamentary institution building and legislative developments and decay in post-authoritarian and praetorian contexts? This book offers a compelling account of Myanmar's halting efforts to develop the institutional framework and practice of a parliament-based democratic governance between 2011 and 2021. It charts the stages of such a legislative resurgence, tracing its causes and exploring how various institutional and political legacies both informed and constrained the re-establishment and operations of the Union legislature or Pyidaungsu Hluttaw. Embracing both ethnographic observations and a methodical engagement with legislative proceedings and historical material, Renaud Egretteau investigates how parliamentary life re-emerged in Myanmar in the 2010s. His analysis concentrates on key legislative mechanisms, processes and tasks pertaining to government oversight, budgetary control, representation and lawmaking, and interrogates how they were learned, re-appropriated and misperformed by Myanmar's new breed of legislators and parliamentary staff until the 2021 army takeover.

**The Anthropology of Parliaments** Emma Crewe, 2021-05-13 The Anthropology of Parliaments offers a fresh comparative approach to analysing parliaments and democratic politics, drawing together rare ethnographic work by anthropologists and politics scholars from around the world. Crewe's insights deepen our understanding of the complexity of political institutions. She reveals how elected politicians navigate relationships by forging alliances and thwarting opponents; how parliamentary buildings are constructed as sites of work, debate and the nation in miniature; and how politicians and officials engage with hierarchies, continuity and change. This book also proposes how to study parliaments through an anthropological lens while in conversation with other disciplines. The dive into ethnographies from across Africa, the Americas, Asia, Europe, the Middle East and the Pacific Region demolishes hackneyed geo-political categories and culminates in a new comparative theory about the contradictions in everyday political

work This important book will be of interest to anyone studying parliaments but especially those in the disciplines of anthropology and sociology politics legal and development studies and international relations

**Performing Representation** Shirin M. Rai, Carole Spary, 2018-10-09 Seven decades after India's independence women members occupy 1 in 10 seats in the Lok Sabha the lower house of the Indian Parliament In analysing women's limited presence in the Indian Parliament *Performing Representation* breaks new ground in scholarship on gender and politics It explores the possibilities and limits of parliamentary democracy and the participation of women in its institutional performances This book offers new insights into the gendered nature of the performance aesthetics and norms of parliamentary life through an examination of electoral data legislative debates and life stories of women MPs The authors avoid both the framing of women MPs either simply as challengers of masculinized institutional politics or only as docile actors in a gendered institution Making a strong case for taking parliamentary politics seriously in these times of populism the book raises critical questions about the politics of difference claim making representation and intersectionality and addresses these as part of global feminist debates on the importance of the women's representation in political institutions

**Handbook of Parliamentary Studies** Cyril Benoit, Olivier Rozenberg, 2020-11-27 This comprehensive Handbook takes a multidisciplinary approach to the study of parliaments offering novel insights into the key aspects of legislatures legislative institutions and legislative politics Connecting rich and diverse fields of inquiry it illuminates how the study of parliaments has shaped a wider understanding surrounding politics and society over the past decades

**National Parliaments as a Global Institution** Pertti Alasuutari, 2025-01-10 Countries all over the world make decisions of national and international importance in a national parliament Today for a country to have a national parliament is a global norm but this has only been the case for the last few hundred years The development of this remarkable uniformity has seen national parliaments become a global institution *National Parliaments as a Global Institution* scrutinizes how the current world order comprising national legislatures evolved how parliaments work and how they form a global network or field for the transfer of ideas and information It highlights the remarkably similar structures and practices of national parliaments all around the world with even the opening words of a session replicating those of other parliaments and the four sacred principles that define national parliaments as an institution national sovereignty parliamentary immunity the national interest or common good and the sanctity of fellow parliamentarians By considering national parliaments as a global institution Pertti Alasuutari explores how legislatures symbolize sanctify and naturalize the nation state as the component part of world society

**Exploring Parliament** Cristina Leston-Bandeira, Louise Thompson, 2018 A fresh perspective on an ancient institution *Exploring Parliament* offers an engaging and real life insight into the inner workings impact and relevance of twenty first century Parliament Short academic and practitioner chapters are combined with highly relevant and practical case studies to provide a new and accessible introduction to Parliament's structures people and practices As well as covering the broader structure of UK Parliament this text explains the role of small parties in law making

**Parliament Buildings** Sophia Psarra,Uta Staiger,Claudia Sternberg,2023-10-30 As political polarisation undermines confidence in the shared values and established constitutional orders of many nations it is imperative that we explore how parliaments are to stay relevant and accessible to the citizens whom they serve The rise of modern democracies is thought to have found physical expression in the staged unity of the parliamentary seating plan However the built forms alone cannot give sufficient testimony to the exercise of power in political life Parliament Buildings brings together architecture history art history history of political thought sociology behavioural psychology anthropology and political science to raise a host of challenging questions How do parliament buildings give physical form to norms and practices to behaviours rituals identities and imaginaries How are their spatial forms influenced by the political cultures they accommodate What kinds of histories politics and morphologies do the diverse European parliaments share and how do their political trajectories intersect This volume offers an eclectic exploration of the complex nexus between architecture and politics in Europe Including contributions from architects who have designed or remodelled four parliament buildings in Europe it provides the first comparative multi disciplinary study of parliament buildings across Europe and across history Praise for Parliament Buildings In its totality this is an invaluable book both as a comprehensive review of the wider implications of architecture and building in culture and society and as a specific resource in the understanding of one highly specialised but profoundly significant building type Dean Hawkes Cardiff University and University of Cambridge Symbols of history and of hope theatres of struggle cradles of consensus parliamentary buildings as these diverse essays show both reflect our democracies and can help them function better David Anderson House of Lords Parliament Buildings is a brilliant interdisciplinary exploration of a fascinating topic Theoretically sophisticated empirically rich and historically informed it demonstrates the multiple ways in which politics and the built environment intersect and sheds light on the symbolic and material practices central to contemporary representative politics Duncan Bell University of Cambridge

[Ceremony and Ritual in Parliament](#) Shirin M. Rai,2013-10-18 Ceremony and Ritual in Parliament breaks new ground in the study of legislatures It combines mainstream historical and social science approaches with cultural theory to consider how parliamentary ritual is constructed through ceremony space and socialisation The focus is on the marginalised groups especially women and members of ethnic minorities who seek inclusion as representatives in democratic legislatures This book assesses aspects of the role that ceremony and ritual in legislatures play especially but not exclusively in their gendered and racialised dimensions Within this broad frame it considers the impact of space identity ritual and or ceremony on the institutional form of parliament how power is shaped within it how the
