Shemtob**

Department Ems Paper November 2014:

New York After 9/11 Susan Opatow, Zachary Baron Shemtob, 2018-09-04 An estimated 2 billion people around the world watched the catastrophic destruction of the World Trade Center. The enormity of the moment was immediately understood and quickly took on global proportions. What has been less obvious is the effect on the locus of the attacks: New York City, not as a seat of political or economic power but as a community, not in the days and weeks afterward but over months and years. New York after 9/11 offers insightful and critical observations about the processes set in motion by September 11, 2001, in New York and holds important lessons for the future. This interdisciplinary collection brings together experts from diverse fields to discuss the long-term recovery of New York City after 9/11. Susan Opatow and Zachary Baron Shemtob invited experts in architecture and design, medicine, health, community advocacy, psychology, public safety, human rights, law, and mental health to look back on the aftereffects of that tragic day in key spheres of life in New York City. With a focus on the themes of space and memory, public health and public safety, trauma and conflict, and politics and social change, this comprehensive account of how 9/11 changed New York sets out to answer three questions: What were the key conflicts that erupted in New York City in 9/11's wake? What clashing interests were involved, and how did they change over time? And what was the role of these conflicts in the transition from trauma to recovery for New York City as a whole? Contributors discuss a variety of issues that emerged in this tragedy's wake, some immediately and others in the years that followed, including PTSD among first responders, conflicts and design challenges of rebuilding the World Trade Center site, the memorial and the museum, surveillance of Muslim communities, power struggles among public safety agencies, the development of technologies for faster building evacuations, and the emergence of chronic illnesses and fatalities among first responders and people who lived, worked, and attended school in the vicinity of the 9/11 site. A chapter on two Ground Zeros in Hiroshima and New York compares and historicizes the challenges of memorialization and recovery. Each chapter offers a nuanced, vivid, and behind-the-scenes account of issues as they unfolded over time and across various contexts, dispelling simplistic narratives of this extended and complicated period. Illuminating a city's multifaceted response in the wake of a catastrophic and traumatic attack, *New York after 9/11* illustrates recovery as a process that is complex, multivalent, and ongoing. [Streaming and Copyright Law](#)

Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective. It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright. By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses, it argues for strengthening end user rights. The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings, cinematographic films, and radio and television broadcasts is used on the internet. Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law.

because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions
