**Deng Xiaoping** Michael Dillon, 2014-10-27 One of the most important figures in global politics during the second half of the 20th century Deng Xiaoping is generally considered the central figure behind China's economic liberalization programme that produced historically unprecedented growth rates and development beginning in the late 1970s Lifting nearly a billion people out of poverty Deng Xiaoping's Four Modernisations called for reform in agriculture industry military and science and technology Today these reforms are considered to be the crucial turning point in modern Chinese history enabling China to effectively harness its previously latent power in its quest to become a global economic superpower Just ten years after this tremendous achievement Deng's brutal suppression of the democracy movement at Tiananmen Square severely undermined his international and domestic reputation To explain the seeming contradictions between Deng Xiaoping's desire for economic liberalization and political conservatism Michael Dillon's biography utilizes recently released Chinese sources to detail Deng Xiaoping's emergence from a minority second class community in the Sichuan province via education in France to his meteoric rise to the top of the CCP's political hierarchy illustrating the ways in which his life of struggle and survival shaped his political career Dillon's biography addresses Xiaoping as both an intensely committed communist capable of playing a principal role in the Great Leap Forward from 1958 to 1961 while incurring the wrath of Mao only ten years later as he was exiled and purged during the Cultural Revolution Emphasizing Deng Xiaoping's effectiveness as a party operator and political bruiser rather than an intellectual capable of formulating the reforms for which he eventually took credit this book sheds light on Deng's ability to capitalize upon the planning expertise of other party members This biography of the central figure in China's economic liberalization is essential for any reader interested in or affected by China's rise to global prominence

**About Xi** Michael Dillon, 2024-01-04 Meet the most powerful leader in the world. Chinese premier Xi Jinping graces our television screens and news headlines on a regular basis. But even after a decade in power, he remains shrouded in mystery. From growing up with a father purged in Mao's Cultural Revolution and his mission to eradicate poverty to his persecution of Uyghur Muslims and paranoia about being likened to Winnie the Pooh, Xi Jinping is a man obscured by caricatures. In this short essential primer, historian and writer Michael Dillon unveils the character of Xi Jinping, arguably the world's most powerful man, to truly understand his grip on China, what he wants and how the West gets him wrong. But this is not just the story of Xi; this is the story of today's largest economic powerhouse, which dives into the crux of the issue: what does Xi's leadership of China mean for the rest of the world and what will he do next.      *Economic and Political Weekly*, 1997

**Deng Xiaoping and the Cultural Revolution** Maomao, 2005-01-01 The daughter of the former Chinese leader describes his life and political career, emphasizing the story of the Cultural Revolution.      **Political Leaders of Modern China** Pak-Wah Leung, 2002-10-30 Through the individual characteristics of China's political leaders, a nation-building process began. Chinese leaders fell into two categories: reformers, conservative and liberal. Conservative reformers saw a corruption of the moral order of society that needed to be eliminated in order to restore the country's moral integrity, while liberal reformers attempted to embrace the flaws and lead China toward Socialism. One hundred Chinese leaders from the Opium War to 2001 are profiled in this comprehensive biographical dictionary. This book provides the most up-to-date coverage of modern Chinese political leadership during the Imperial, Republican and Communist periods. Political leaders throughout each period had a common desire for reform within the country while maintaining China's political and cultural legacy. Leung invokes the uniqueness of those leaders in their struggle for personal gain and national improvement as they fought to preserve traditional values.
