**Backstabbing for Beginners** Michael Soussan, 2008-11-04 Soon to be a major motion picture starring Ben Kingsley and Theo James the gripping true story of a young program coordinator at the United Nations who stumbles upon a conspiracy involving Iraq's oil reserves What made this episode in our collective history possible was not so much the lies we told one another but the lies we told ourselves A recent Brown University graduate Michael Soussan was elated when he landed a position as a program coordinator for the United Nations Iraq Program Little did he know that he would end up a whistleblower in what PBS NewsHour described as the largest financial scandal in UN history Breaking a conspiracy of silence that had prevailed for years Soussan sparked an unprecedented corruption probe into the Oil for Food program that exposed a worldwide system of bribes kickbacks and blackmail involving ruthless power players from around the globe At the crossroads of pressing humanitarian concerns crisis diplomacy and multibillion dollar business interests Soussan's story highlights core flaws of our international system and exposes the frightening corrupting power of the black elixir that fuels our world's economy

Plural Diplomacies Noé Cornago, 2013-06-01 In Plural Diplomacies Normative Predicaments and Functional Imperatives Noé Cornago asserts the need to restore the long interrupted continuity between the relevance of diplomacy as *raison de système* in a world which is much more than a world of States and its unique value as a way to mediate the many alienations experienced by individuals and social groups The book contends that an incursion beyond conventional understanding of diplomatic studies into fields of knowledge such as social studies of science psychology critical sociology of law or conceptual history offers expanded potential within the field by addressing the modern complexities of global life With particular attention to the semantics of diplomacy pluralization of diplomacy diplomacy within states commodity diplomacy and finally antidiplomacy Plural Diplomacies Normative Predicaments and Functional Imperatives offers a new vision of diplomacy for the twenty first century

The Oxford Handbook of Global Policy and Transnational Administration Diane Stone, Kim Moloney, 2019-01-10 Global policy making is unfurling in distinctive ways above traditional nation state policy processes New practices of transnational administration are emerging inside international organizations but also alongside the trans governmental networks of regulators and inside global public private partnerships Mainstream policy and public administration studies have tended to analyse the capacity of public sector hierarchies to globalize national policies By contrast this Handbook investigates new public spaces of transnational policy making the design and delivery of global public goods and services and the interdependent roles of transnational administrators who move between business bodies government agencies international organizations and professional associations This Handbook is novel in taking the concepts and theories of public administration and policy studies to get inside the black box of global governance Transnational administration is a multi actor and multi scalar endeavour having manifestations depending on the policy issue or problems at the local urban sub regional sub national regional national supranational supra regional transnational

international and global scales These scales of local and global are not neatly bounded and nested spaces but are articulated together in complex patterns of policy activity These transnational patterns represent a reinvigoration of public administration and policy studies as the Handbook authors advance their analysis beyond the methodological nationalism of the nation state

**Doing Bad by Doing Good** Christopher J. Coyne, 2023-05-25 An economics focused analysis of why humanitarian relief efforts fail and how they can be remedied In 2010 Haiti was ravaged by a brutal earthquake that affected the lives of millions The call to assist those in need was heard around the globe Yet two years later humanitarian efforts led by governments and NGOs have largely failed Resources are not reaching the needy due to bureaucratic red tape and many assets have been squandered How can efforts intended to help the suffering fail so badly In this timely and provocative book Christopher J. Coyne uses the economic way of thinking to explain why this and other humanitarian efforts that intend to do good end up doing nothing or causing harm In addition to Haiti Coyne considers a wide range of interventions He explains why the US government was ineffective following Hurricane Katrina why the international humanitarian push to remove Muammar Gaddafi in Libya may very well end up causing more problems than prosperity and why decades of efforts to respond to crises and foster development around the world have resulted in repeated failures In place of the dominant approach to state led humanitarian action this book offers a bold alternative focused on establishing an environment of economic freedom If we

are willing to experiment with aid asking questions about how to foster development as a process of societal discovery or how else we might engage the private sector for instance we increase the range of alternatives to help people and empower them to improve their communities Anyone concerned with and dedicated to alleviating human suffering in the short term or for the long haul from policymakers and activists to scholars will find this book to be an insightful and provocative reframing of humanitarian action Praise for Doing Bad by Doing Good Coyne is to be congratulated for a book that strongly calls into question the conventional wisdom that we must look first to government to accomplish humanitarian ends George Leef Regulation Magazine Coyne attempts to explain why conventional approaches to humanitarian aid and longer term economic development have failed miserably Recommended M Q Dao Choice Coyne offers a classic neo liberal economic analysis to explain why the humanitarian project in its current state is doomed Zoe Cormack Times Literary Supplement Collective Entrepreneurship in the Contemporary European Services Industries Paloma Fernández Pérez,Elena San Román,2023-07-11 Collective Entrepreneurship in the Contemporary European Services Industries provides a historical account and a managerial approach on how companies in the service industry have grown innovated and internationalised along the last centuries in Western Europe The Nation ,2009 **The Tribune** ,2009 **Bibliographie Mensuelle** United Nations Library (Geneva, Switzerland),2009-10 **The Publishers Weekly** ,2008 *Library Journal* ,2008 **Diplomacy in the 21st Century** Paul Sharp,2019 This book provides an introduction to the theory and practice of diplomacy and its vital role in an era of increasing international uncertainty The work employs a distinctive diplomatic perspective on international relations and argues that the experience of conducting diplomacy gives rise to a set of priorities first the peaceful resolution of disputes second the avoidance of unwanted conflict and third the minimization of the intensity of violent conflict where it has become unavoidable It argues that changes in the international system require a shift in priorities from the diplomacy of problem solving by building institutionalized cooperation to the diplomacy of managing relationships between people Divided into three sections the first examines what is meant when we talk about diplomacy why we need diplomats and the operations of the modern diplomatic system of states The second discusses the three bads about which people generally worry bad leaders bad media and bad followers The idea of bad is considered in terms of the moral character professional competence and the consequences of what people do for us The final section discusses diplomacy and bad diplomats reviewing what people can do to help themselves and the professionals be good diplomats This book is intended as a primary text for courses in international diplomacy and as a supplementary text for courses on contemporary issues in international relations media and bad followers The idea of bad is considered in terms of the moral character professional competence and the consequences of what people do for us The final section discusses diplomacy and bad diplomats reviewing what people can do to help themselves and the professionals be good diplomats This book is intended as a primary text for courses in international diplomacy and as a supplementary text for courses on contemporary issues in international relations
