**Laws of the State of New York** New York (State),1887 *Fault, Responsibility, and Administrative Law in Late Babylonian Legal Texts* F. Rachel Magdalene,Cornelia Wunsch,Bruce Wells,2019-10-24 This book presents a reassessment of the governmental systems of the Late Babylonian period specifically those of the Neo Babylonian and early Persian empires and provides evidence demonstrating that these are among the first to have developed an early form of administrative law The present study revolves around a particular expression that in its most common form reads u a arri i addad and can be translated as he will be guilty of an offense against the king The authors analyze ninety six documents thirty two of which have not been previously published discussing each text in detail including the syntax of this clause and its legal consequences which involve the delegation of responsibility in an administrative context Placing these documents in their historical and institutional contexts and drawing from the theories of Max Weber and S N Eisenstadt the authors aim to show that the administrative bureaucracy underlying these documents was a more complex systematized and rational system than has previously been recognized Accompanied by extensive indexes as well as transcriptions and translations of each text analyzed here this book breaks new ground in the study of ancient legal systems
