Petit guide de la flore de Kabylie et d'ailleurs Houria Tas, 2023-05-22T00:00:00Z Beaucoup de personnes pensent que l'avenir de l'humanité se trouve dans les plantes. En plus de nous faire revivre elles nous nourrissent et nous soignent. Critiqué par Houria Tas, ce guide est destiné à tous ceux qui veulent connaître le nom des végétaux qui nous entourent, autant que leurs vertus qu'elles soient culinaires ou médicinales. Présenté sous forme de fiches d'une approche simple et pédagogique, ce livre permet d'aborder l'univers riche et complexe des végétaux. Il donne des conseils de vie tout en proposant des références culturelles pour faire pousser le bonheur dans nos terres comme dans nos jardins. *Les contes de Perrault et les récits parallèles* Pierre Saintyves, 1923 *The Medieval Chronicle*, 2022-11-07 In the summer of 1996 the first international conference was held on the medieval chronicle, a genre which until then had received but scant attention from historians or specialists in literary history or art history. There are several reasons why the chronicle is particularly suited as the topic of an international conference. In the first place there is its ubiquity all over Europe and throughout the Middle Ages; chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world. Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written, how do they reconstruct the past, what determined the choice of verse or prose or what kind of literary influences are discernable in them. Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions. It is the aim of the present volume to provide a representative survey of the ongoing research in the field of chronicle studies, illustrated by examples from specific chronicles from a wide variety of countries, periods and cultural backgrounds. *Catalog of Copyright Entries. Romans et contes égyptiens de l'époque pharaonique Gustave Lefebvre, 1976 **Une Œuvre anglo-indienne et ses visages français** Yves Guérin, 1971 **The Oxford Handbook of Caste**, 2023-10-31 Beginning with the 1990s the subject of caste has seen a profound increase in interest among scholars. What was until then approached as a fossilized tradition of the ritual-obsessed Hindus, refusing to see the progressive spirits of the emerging world and studied as a branch of anthropology, suddenly began to be seen as a complex reality deeply embedded in a range of institutions and social practices, attracting scholars from a wide range of disciplines: sociology, political science, history, literature and even economics. Underlying this opening of the subject of caste were many factors: epistemic, empirical and political. Caste is no longer approached through the classical binaries of traditional and modern, the East and the West, or the closed and open systems of stratification. With the growing consolidation of caste-based identities among those ranked lower down in the hierarchy, since the 1990s raising questions of citizenship and dignity, the subject has acquired a new salience. As the emerging research shows, the realities of caste on the ground have always been diverse across regions, often contested and

ever changing This Handbook presents a wide range of essays written by authors representing diverse academic disciplines and perspectives bringing together the emerging trends in the research imaginations and lived realities of caste
