 the chapters in this book were originally presented as papers at a conference held at Queen's University Belfast in  
 September 2006 The volume explores the oral/written dynamic in the conte français francophone focusing on key aspects of  
 the relationship between oral and written forms of the conte The chapters fall into four broad thematic areas the oral/written  
 dynamic in early modern France literary appropriations and transformations postcolonial contexts storytelling in  
 contemporary France linguistic strategies Within these broad areas some chapters deal with sources and influences such as  
 that of written on oral and vice versa others with the nature of the discourse resulting from an oral/written dynamic  
 discourse structure linguistic features etc some with the oral/written interface as it affects the definition of genre others with  
 the role of the oral within the literary or written text use of storytelling scenarios the problematics inherent in transcribing  
 adapting the spoken word etc This chronological and methodological range allows us to situate the emergence of the form in  
 socio-cultural and historical terms and to open up debate around the role of the conte in particular geographical and political  
 contexts regional national European and postcolonial This book contains contributions in both English and French

 authors in France were questioning women's efforts to read a new literary genre emerged conduct books written specifically  
 for girls and unmarried young women In this carefully researched and thoughtfully argued book Professor Nadine Berenguer  
 shares an in-depth analysis of this development relating the objectives and ideals of these books to the contemporaneous  
 Enlightenment concerns about improving education in order to reform society Works by Anne Thérèse de Lambert Madeleine

 Joseph Reyre Pierre Louis Roederer and Marie Antoinette Lenoir take up a wide variety of topics and vary dramatically in  
 tone But they all share similar objectives acquainting their young female readers with the moral and social rules of the world  
 and ensuring their success at the next stage of their lives While the authors regarded their texts as furthering the common  
 good they were also aware that they were likely to be controversial among those responsible for girls' education Berenguer's  
 sensitive readings highlight these tensions as she offers readers a rare view of how conduct books were conceived consumed  
 re-edited memorialized and sometimes forgotten In the broadest sense her study contributes to our understanding of how  
 print culture in eighteenth century France gave shape to a specific social subset of new readers modern girls *Bulletin of*
