## QUESTION SELECTION METHODS

---

There are six ways to add questions to a test from a test bank from the ExamView Test Builder toolbar.

Use the **Select Questions Randomly** option if you want to quickly choose questions without regard to the content of the question. For example, you could choose 20 multiple choice questions randomly and then use another method to select additional questions.

Use the **Select from a List** option to select questions from banks from a list based on criteria such as topic, keywords, standards, difficulty level, etc.

The **Select Questions While Viewing** option lets you view the questions on the screen and choose which ones you want to include on a test.
