**Textbook on Criminal Law** Michael J. Allen, 1991      *The Right to Be Punished* Gabriel Hallevy, 2012-10-12 Does an offender have the right to be punished The right to be punished may sound like an oxymoron but it is not necessarily so With the emergence of modern criminal law the offender gained the right to be punished by rational criminal law rather than being lynched by an angry mob The present day offender may have the right to be punished by doctrinal sentencing rather than being subjected to verdicts based on vague unclear and uncertain principles In modern criminal law the imposition of criminal liability follows accurate and strict rules whereas there are no similar rules for the imposition of punishment The process of sentencing is vague and obscure as are the considerations used for the imposition of punishments The objective of the present book is to propose a comprehensive general and legally sophisticated theory of modern doctrinal sentencing The challenges of such a legal theory are plenty and complex In addition to increasing clarity and certainty modern doctrinal sentencing must deal with modern types of delinquency e g organized crime recidivism corporate offenders high tech offenses etc and modern principles of criminal law Modern doctrinal sentencing must serve to ensure optimal sentencing

Prisons are a microcosm of how carceral apartheid operates as a larger governing strategy to decimate political targets and foster deceit disinformation and division in society Among many shocking discoveries Friedman shows that beginning in the 1950s California prison officials declared war on imprisoned Black people and sought to identify Black militants as a key problem creating a strategy for the management segregation and elimination of these individuals from the prison population that continues into the present day Carceral Apartheid delves into how the California Department of Corrections deployed various official clandestine and at times extralegal control techniques including officer alliances with imprisoned white supremacists to suppress Black political movements revealing the broader themes of deception empire corruption and white supremacy in American mass incarceration Drawing from original interviews with founders of Black political movements such as the Black Guerilla Family white supremacists and a swath of little known archival data Friedman uncovers how the US domestic war against imprisoned Black people models and perpetuates genocide imprisonment and torture abroad
