

CITY OF GREENVILLE  
POLICE DEPARTMENT

MEMORANDUM

**DATE:** August 14, 2023  
**TO:** The Mayor of Greenville  
**FROM:** Sabrina Goodridge  
**RE:** Public Policy and Social Control

The purpose of this memo is to explain how and why theories may be used to inform policies, the benefits of those policies, and why theory may explain where the existing policy is failing. I will identify the possible barriers that may impede the implementation of this new approach. In addition, I will explain how innovative approaches can include resources outside the department, such as schools, businesses, and social services, to implement a system relying on institutional social control and public social control.

The rational choice theory and strain theory may enhance the capacity of the Greenville police department to understand the nature of property crime and other ongoing crime problems by determining the main causes of the crime through different means like business closings, unemployment rates, and even on community programs. The rational choice theory helps the police department by understanding that not all people commit crime but it's their choice or decision to commit a certain type of crime. It also helps to explain that when a person in society is struggling it's not uncommon for them to turn to crime for monetary or financial gain. The strain theory helps the police department to understand that crime problems are associated with social economic strain. So, when a person has stress, fear, or anger which causes them to have the inability to reach their goals within society through the proper channels like having a job or other institutional resources. The importance of Greenville developing innovative policies to curtail the possibility of the same problems from recurring again in Greenville would be to make sure that these policies will have an impact on not just the property crime but other crime as well. It will also help the city of Greenville to show people and other businesses that they care, and it can help them to bring in more business to help with the high unemployment rates, which will cut down most of the crime that is going on. Innovative programs also help the city to establish new solutions in response to existing problems or challenges that arise from social and economic issues. It sheds light on why and how the policy works or not but also helps them to be able to design, implement and revise a policy in accordance with existing or future social and economic issues.

The reason why the current policy has failed to reduce property crime within the city of Greenville is because there are not enough police officers employed to help enforce the laws in the communities of Greenville. The other issue would be that the city of Greenville doesn't have the proper resources within the communities to combat deter crime. The last issue I see is that the

Greenfield,Letizia Paoli,2022-04-28

Assessing the Harms of Crime provides a firm analytical foundation for making normative decisions about criminal and related policy taking harm and its reduction as a conceptual starting point and supplying the means for systematic empirical analysis in a harm assessment framework By exploring harm s place in legal history theory criminology and related fields and by considering the relevance of harm and its reduction for both criminal policy and the governance of security the book demonstrates the centrality of harm including its reduction to crime policy and governance It also highlights a substantial gap in methods available to the policy community to take on harm and the challenges of developing them Working to fill that gap the book presents the authors Harm Assessment Framework consisting of tools and a process to identify evaluate and rank harms and to carefully distinguish between harms that result directly from activities and those that are remote or driven at least partially by policy The book also presents applications to complex crimes primarily involving coca and cocaine that show the framework s value with new actionable insight to harm and policy On this basis the book argues that criminology would benefit from expanding its mission to include harm and target harm reduction and from positioning harm assessment as a core task Lastly it posits that systematic empirical harm based policy analysis can contribute positively to decisions about criminal policy and the governance of security and to advancing justice      Hard Bargains Mona Lynch,2016-11-01

The convergence of tough on crime politics stiffer sentencing laws and jurisdictional expansion in the 1970s and 1980s increased the powers of federal prosecutors in unprecedented ways In Hard Bargains social psychologist Mona Lynch investigates the increased power of these prosecutors in our age of mass incarceration Lynch documents how prosecutors use punitive federal drug laws to coerce guilty pleas and obtain long prison sentences for defendants particularly those who are African American and exposes deep injustices in the federal courts As a result of the War on Drugs the number of drug cases prosecuted each year in federal courts has increased fivefold since 1980 Lynch goes behind the scenes in three federal court districts and finds that federal prosecutors have considerable discretion in adjudicating these cases Federal drug laws are wielded differently in each district but with such force to overwhelm defendants ability to assert their rights For drug defendants with prior convictions the stakes are even higher since prosecutors can file charges that incur lengthy prison sentences including life in prison without parole Through extensive field research Lynch finds that prosecutors frequently use

the threat of extremely severe sentences to compel defendants to plead guilty rather than go to trial and risk much harsher punishment Lynch also shows that the highly discretionary ways in which federal prosecutors work with law enforcement have led to significant racial disparities in federal courts For instance most federal charges for crack cocaine offenses are brought against African Americans even though whites are more likely to use crack In addition Latinos are increasingly entering the federal system as a result of aggressive immigration crackdowns that also target illicit drugs *Hard Bargains* provides an incisive and revealing look at how legal reforms over the last five decades have shifted excessive authority to federal prosecutors resulting in the erosion of defendants rights and extreme sentences for those convicted Lynch proposes a broad overhaul of the federal criminal justice system to restore the balance of power and retreat from the punitive indulgences of the War on Drugs

Luke, 2015-11-17 Schools theatres and malls used to be safe havens Marathons were triumphal not tragic Today public life is risky Citizens are on edge either calling for gun control or purchasing personal weapons of self defense In this timely book prominent US and international authors examine gun violence in public life They offer the latest data and analysis on topics such as comparative gun homicide rates the efficacy of gun control risks associated with gun ownership concealed carry data and policy media and gaming violence gender and guns and school shootings New insights are developed from a comparative case study of Canada a country in which gun ownership is common but with a much lower rate of gun violence Neither demonising nor mythologising guns the contributors provide evidence based analyses that shed light on policy directions and personal conduct

**Police Funding, Dark Money, and the Greedy Institution** Randy K. Lippert, Kevin Walby, 2022-05-05 *Police Funding Dark Money and the Greedy Institution* is about a pervasive but little studied phenomenon Private funding of public police entails private entities sending resources to police through unconventional or hidden channels sometimes for suspect reasons The book argues police acquisition of this dark money befits the notion of a greedy institution that pursues resources beyond ample public funding and needs and seeks ever more loyal members beyond its traditional boundaries to reproduce itself The book focuses on private police foundations corporate sponsorships and paid detail arrangements primarily in North America how these funding networks operate and are framed for audiences

and the forms and volumes of capital they generate Based on interviews with police representatives sponsors funders and foundation representatives as well as records from over 100 police departments this book examines key issues in private funding of public police including corporatization accountability corruption and the rule of law It documents and analyzes the troubling explosion of police foundations and sponsors and corporate paid detail brokers unknown to the public as a social and policy issue and a hidden response to the global police defunding movement The book also considers potential policy responses and community safety alternatives in a more generous society An accessible and compelling read students and scholars in criminology criminal justice law sociology political science anthropology geography as well as policymakers will find this timely book revealing of a neglected growing area of police practice spanning multiple themes and jurisdictions
