Crisis Group Africa Report:

Political Leadership in Foreign Policy A. Grove, 2007-04-30 Challenging the standard views that individual leaders either have all the power or little room to move in the making of foreign policy this book demonstrates various ways that leaders succeed by manipulating elements of their domestic and international environments *Does Development Aid Affect Conflict Ripeness?* Lucie Podszun, 2011-08-27 Many developing countries find themselves in seemingly intractable internal conflicts hindering them from moving on into a more stable secure and wealthy environment It seems that underdevelopment and conflict go hand in hand Underdevelopment most often implies large streams of development aid channeled into countries at war The work evaluates to what extent an increase in development aid affects conflict ripeness The research shows that the effect is ambivalent it depends on the conditions of provision whether it is positive or negative In general an increase in development aid decreases the intensity of one of the ingredients to conflict ripeness the mutually hurting stalemate However if embedded into a smart strategy an increase in development aid enhances the second ingredient to conflict ripeness the sense of a way out By that it counterbalances the negative effect and thus fosters the phase of ripeness creating an ideal starting position for a subsequent peace process *Barriers to Peace in Civil War* David E. Cunningham, 2014-06-12 Civil wars vary greatly in their duration This book argues that conflicts are longer when they involve more actors who can block agreement veto players and identifies specific problems that arise in multi party bargaining Quantitative analysis of over 200 civil wars since World War II reveals that conflicts with more of these actors last much longer than those with fewer Detailed comparison of negotiations in Rwanda and Burundi demonstrates that multi party negotiations present additional barriers to peace not found in two party conflicts In addition conflicts with more veto players produce more casualties are more likely to involve genocide and are followed by shorter periods of peace Because they present many barriers to peace the international community has a poor track record of resolving multi party conflicts David Cunningham shows that resolution is possible in these wars if peace processes are designed to address the barriers that emerge in multi party conflicts International Law and Civil Wars Eliav Liebllich, 2013 This book examines the international law of forcible intervention in civil wars in particular the role of party consent in affecting the legality of such intervention In modern international law it is a near consensus that no state can use force against another the main exceptions being self defence and actions mandated by a UN Security Council resolution However one more potential exception exists forcible intervention undertaken upon the invitation or consent of a government seeking assistance in confronting armed opposition groups within its territory Although the latter exception is of increasing importance the numerous questions it raises have received scant attention in the current body of literature This volume fills this gap by analyzing the consent exception in a wide context and attempting to delineate its limits including cases in which government consent power is not only negated but might be transferred to opposition groups The book also discusses the concept of consensual intervention in

contemporary international law in juxtaposition to traditional legal doctrines It traces the development of law in this context by drawing from historical examples such as the Spanish Civil War as well as recent cases such those of the Democratic Republic of the Congo Somalia Libya and Syria This book will be of much interest to students of international law civil wars the Responsibility to Protect war and conflict studies and IR in general *Global Governance and Local Peace* Susanna P. Campbell, 2018-06-07 This book explains why successful international peacebuilding depends on the unorthodox actions of country based staff whose deviations from approved procedures help make global governance organizations accountable to local realities Using rich ethnographic material from several countries it will interest scholars students and policymakers

Reports, Projects, and Other Publications by and about the International Crisis Group International Crisis Group, 1996

The Congo's Transition is Failing International Crisis Group, 2005 Liberia's Elections , 2005 *Kenya in Crisis* , 2008 Since the announcement of the contested presidential election results on 30 December 2007 giving a second term to Mwai Kibaki Kenya has been in its worst political crisis since independence *Refugees, the State and the Politics of Asylum in Africa* James H. S. Milner, 2009-11-06 How can we understand the plight of refugees in Africa Why are refugees now spending an average of 17 years in exile Why have African states required refugees to remain in isolated and insecure camps Is there a better approach to the needs of refugees in Africa This book answers these questions by examining the history and politics of asylum in Africa and the response of key African states to the mass arrival and prolonged presence of refugees By situating the question of refugees within the broader context of African politics the book outlines the broad range of factors that influence the asylum policies of African states Building from these lessons the book outlines the politics of asylum in Africa and proposes a new approach to addressing the needs of the continent s refugees This approach leads to important lessons not only for the study of asylum in Africa but also for the future of refugee protection in Africa Refugee Survey Quarterly , 2009 *Crafting Peace* Sasha Lezhnev, 2005-09-26 *Crafting Peace* analyzes warlords in depth including their organizational structure and the context in which they operate ultimately exploring the effectiveness of various short and long term strategies to deal with warlords Instead of focusing strictly on economic causes the focus here is on the extremely frail political security environment that allows warlords to rise up seize power and profit in the midst of chaos This deeper political context under analyzed in other texts in terms of its effect on warlordism is crucial to understanding both why warlords arise and how they should be dealt with This book suggests a two pronged strategic approach to help craft peace unseating certain intransigent warlords through immediate coercive measures and taking away the anarchic environment in which these actors thrive by implementing several policies aimed at rebuilding law and order over the long term Sasha Lezhnev discusses this approach by looking at real world cases in Sierra Leone and Tajikistan *Crafting Peace* presents a new way of looking at eliminating warlords and restoring peace in war torn states that will prove essential to both scholars and practitioners in international relations and political science *The EU/AU Partnership in Darfur* , 2005

Darfur ,2007 The Nature of the Conflict in Sudan Donovan Du Plooy,2005 To Save Darfur ,2006 *A New Paradigm of the African State* Mueni wa Muiu, Guy Martin,2009-02-13 This book takes a multidisciplinary and long term historical perspective to study the evolution of African political systems and institutions It ranges from Antiquity Egypt Kush and Axum to the present with a particular focus on the destruction of these political systems and institutions through successive exogenous processes including the Atlantic slave trade imperialism colonialism and neo colonialism or globalization Darfur International Crisis Group,2005 *Security Dynamics in Africa's Great Lakes Region* Gilbert M. Khadiagala,2006 This edited work explores the sources of conflict in Africa s Great Lakes region as well as local and international attempts to rebuild political authority and reduce the scale of human suffering *The Democratic Republic of Congo* Michael Wallace Nest,François Grignon,Emizet F. Kisangani,2006 Explores the operational challenges that the war economy posed and continues to pose for peace operations and reconstruction efforts in the Democratic Republic of Congo
