Frederic Harrison

Crisis In Egypt:

Crisis in Egypt Committee on Foreign Relations United States Senate, 2014-11-02 The situation in Egypt has tremendous implications for the region and for the United States Our response and our policy must be carefully calibrated to press for the Democratic reforms that have been demanded by the Egyptian people and at the same time support United States national security interests in the region These two goals require a complex policy response that allows us to advocate for much needed democratic reforms while also ensuring our own security needs Terminating United States assistance at this time could provoke a further crisis in Egypt that would not be to our benefit Steps that exacerbate the divide in Egyptian society including the use of force against protesters and arrests and harassment of pro Morsi and of Muslim Brotherhood leaders serve only to deepen the chasm and forestall reconciliation The only way forward to a pluralistic vibrant and stable democracy lies in the inclusion of all political parties and groups Our support is not unconditional and unending At the end of the day Egyptian leaders and the Egyptian military must show that they are committed to an inclusive political process credible democratic elections and democratic governance that protects the rights of religious minorities and women **Egypt for the Egyptians!** Alexander Schölch, 1981 **The Crisis of Egypt** Egyptian Information Bureau, 1952* **The Present Crisis in Egypt**, 1851 **The Crisis in Egypt. An Address, Etc** Frederic Harrison, 1882 **Economic Crisis And The Politics Of Reform In Egypt** Ray Bush, 2019-04-10 This book examines the character and consequences of Egypt's economic reform and structural adjustment programme of 1991 along with the second stage of reforms in 1996 It contributes to the debates underpinning the political economy of economic reform and agricultural reform **Egypt** Wafik Moustafa, 2017-06 Directly with the candour of a well informed old friend Dr Wafik Moustafa shares an insight into the remarkable situation Egypt finds itself in today This authoritative commentary on Egyptian affairs casts an eye back over Egypt's modern history taking the reader through the landmark events that have formed the modern nation and brings the reader to a close and impartial understanding of the current political climate in Egypt This updated edition brings in analysis of recent events the collapse of the Muslim Brotherhood government and the new Egypt being forged under Sisi **EGYPT ON THE EDGE**, 2017 **The Autumn of Dictatorship** Samer Soliman, 2011-04-01 The Egyptian protests in early 2011 took many by surprise In the days immediately following commentators wondered openly over the changing situation across the Middle East But protest is nothing new to Egypt and labor activism and political activism most notably the Kifaya Enough movement have increased dramatically over recent years In hindsight it is the durability of the Mubarak regime not its sudden loss of legitimacy that should be more surprising Though many have turned to social media for explanation of the events in this book Samer Soliman follows the age old adage follow the money Over the last thirty years the Egyptian state has increasingly given its citizens less money and fewer social benefits while simultaneously demanding more taxes and resources This has led to a weakened state deteriorating public

services low levels of law enforcement poor opportunities for employment and economic development while simultaneously inflated the security machine that sustains the authoritarian regime Studying the regime from the point of view of its deeds rather than its discourse this book tackles the relationship between fiscal crisis and political change in Egypt Ultimately the Egyptian case is not one of the success of a regime but the failure of a state The regime lasted for 30 years because it was able to sustain and reproduce itself but left an increasingly weakened state unable to facilitate capitalist development in the country The resulting financial crisis profoundly changed the socio economic landscape of the country and now is paving the way for political change and the emergence of new social forces

Egypt Mahmoud Mohieldin,Hanan Amin-Salem,Amira El-Shal,Eman Moustafa,2024-08-09 There is a significant discrepancy between the population of Egypt and the GDP of this country This book offers pragmatic policy prescriptions for Egyptian decision makers It provides a path forward and toward a better future for the Egyptian people The country faces challenges with household income social welfare productivity and many other markers of twenty first century economic success even vis vis other developing country peers This book focuses on framing the optimal macroeconomic policy agenda for Egypt in the face of the big global regional and national forces that are being accelerated intensified or changed by the COVID 19 crisis rather than on specific sectoral policy formulations The authors present these big questions in the context of showing how Egypt can best navigate the risks and seize the opportunities of the current period of intense flux and transition to put itself in the best possible position to create prosperity stability and hope for its citizens The authors examine to what extent the Egyptian authorities can fulfill their ambitious development plans and in producing this work to provide useful lessons that can be applied to other governments struggling to respond to the challenges of the age *Crisis and Class War in Egypt*
