Crisis In Korea America China And The Risk Of War:

Crisis in Korea Tim Beal, 2011-09-15 The South Korean warship Cheonan was sunk in mysterious circumstances on March 26 2010 The remarkable events that followed are analyzed by Tim Beal and woven into a larger study of the increasingly volatile relations between North and South Korea and US concern about the rise of China South Korea's stance towards the North has hardened significantly since the new conservative government came to power Beal argues that the South moved quickly to use the sinking of the Cheonan to put international pressure on the North even before the cause of the sinking had been established The United States followed suit by attempting to pressure China into condemning North Korea The media reports at the time presented an open and shut case of unprovoked North Korean aggression but the evidence points towards the accidental triggering of a South Korean mine as the cause and South Korean fabrication to incriminate the North With the South bent on forcing the fall of the North's regime with US help and China unlikely to stand idly by this book offers an essential guide to the key factors behind the crisis and possible solutions *The US Versus the North Korean Nuclear Threat* Er-Win Tan, 2013-11-26 Although the current world order is still dominated by the US there is increasing international concern over the possibility of regional security dilemmas arising from smaller powers' attempts to develop Weapons of Mass Destruction A study of US North Korean interaction using the security dilemma as a conceptual frame of analysis is thus not only hugely topical but also particularly relevant for the 21st century on theoretical as well as empirical grounds Is there the prospect of a security dilemma contagion if North Korea acquire nuclear weapons capability leading to an Asia Pacific wide nuclear arms race This book examines this contentious issue in depth and explores the difficult choices policymakers face as a result of the uncertainty in international politics Deterrence in American Foreign Policy: Theory and Practice Alexander L. George, Richard Smoke, 1974 New Directions in the Study of China's Foreign Policy Robert S. Ross, 2006 Ten outstanding specialists in Chinese foreign policy draw on new theories, methods and sources to examine China's use of force, its response to globalization and the role of domestic politics in its foreign policy *China* Constantine Christopher Menges, 2005 In a book that is as certain to be as controversial as it is meticulously researched a former special assistant to the president for National Security Affairs and senior official of the Central Intelligence Agency shows that the US could be headed toward a nuclear face off with communist China within four years And it definitively reveals how China is steadily pursuing a stealthy systematic strategy to attain geopolitical and economic dominance first in Asia and Eurasia then possibly globally within the next twenty Using recently declassified documents, statements by Russian and Chinese leaders largely overlooked in the Western media and groundbreaking analysis and investigative work Menges explains China's plan thoroughly exposing China's methods of economic control, China's secret alliance with Russia and other anti-America nations including North Korea, China's growing military and nuclear power over 90 ICBMs many of them aimed at US cities How China and Russia have been responsible for weaponizing terrorists bent on harming the US Damage
