Critical Thinking Within The Library Program:

Critical Thinking Within the Library Program John Spencer, Christopher Millson-Martula, 2014-10-20 While academic librarians frequently discuss critical thinking and its relationship to information literacy the literature does not contain an abundance of sources on the topic Therefore this work provides a current and timely perspective on the possible roles of critical thinking within the library program The work contains a variety of approaches likely to benefit the practicing librarian It begins with a review of the literature followed by theoretical approaches involving constructivism and the Socratic method Readers will find pieces on the integration of critical thinking into the first year experience and course specific case studies as well as a selection on a campus wide critical thinking project In each of the pieces librarians are exploring new ways to meet their instructional goals including the goal of teaching critical thinking skills to students across the curriculum This book was originally published as a special issue of *College Undergraduate Libraries* **Special Issue:**

Critical Thinking Within the Library Program, 2008 **Emotional Intelligence and Critical Thinking for Library Leaders** Gary L. Shaffer, 2020-03-17 As the use of libraries changes leaders need to improve their emotional intelligence and critical thinking in order to attract and retain users Focused on practical management advice this is an engaging discussion of how library leaders can grow in their role *Data Literacy in Academic Libraries* Julia Bauder, 2021-06-22 The strategies and initiatives detailed in this book will empower data librarians information literacy instructors library liaisons and reference staff to successfully incorporate data literacy into their work *Library Literature & Information Science*, 2008

The Next Library Leadership Peter Hernon, Ronald R. Powell, Arthur P. Young, 2003-10-30 This much needed work addresses a topic of increasing importance and urgency the shortage of individuals attracted to professional careers in librarianship and the subsequent consequences for leadership positions particularly library directorship Through extensive interviews and a thorough review of the existing literature the authors all highly respected for their exceptional leadership and contributions to library science assess what constitutes effective leadership and identify the traits needed by the next generation of academic and public library directors The authors argue that library directors must be both managers and leaders and that LIS students and graduates need appropriate support in seeking out upper level positions and exercising

leadership They present tools for assessing leadership and suggest strategies that individuals can use to prepare themselves for leadership positions and the challenges that lie ahead A detailed bibliography completes the work An important contribution to the field of library and information science this eye opening study is essential reading for anyone in the profession Library & Information Sciences ,1987 **Library Journal** ,1990-07 *Library Literature* H.W.
