Steven J. Clarke

Crito With Introduction And Analysis Kindle:

Dante's Dream Gwenyth E. Hood, 2021-07-05 Archetypal images Carl Jung believed when elaborated in tales and ceremonies shape culture's imagination and behavior. Unfortunately, such cultural images can become stale and lose their power over the mind. But an artist or mystic can refresh and revive a culture's imagination by exploring his personal dream images and connecting them to the past. Dante Alighieri presents his *Divine Comedy* as a dream vision, carefully establishing the date at which it came to him: Good Friday 1300, and maintaining the perspective of that time and place throughout the work upon unfolding history. Modern readers will therefore welcome a Jungian psychoanalytical approach which can trace both instinctual and spiritual impulses in the human psyche. Some of Dante's innovations: admission of virtuous pagans to Limbo and individualized scenes meeting personal friends in the afterlife, more likely spring from unconscious inspiration than conscious didactic intent. For modern readers, a focus on Dante's personal dream journey may offer the best way into his poem.

Contemporary Strategic Chinese American Business Negotiations and Market Entry Steven J.

Clarke, 2023-01-01 This book is an effort to provide a primary source, a guide for Chinese American cross-cultural negotiations which has been constructed and amassed by professionals living and working in China. Research included: personal interviews, surveys, case studies, face-to-face negotiations, and consulting, melded with a broad body of international business. This book has two focuses: China market entry and negotiations. Both China and the United States are vast, complex markets with different histories and cultures. China market entry requires extensive research and understanding of the inextricably linked elements of how business is managed in China: b) understanding the China market and c) negotiating all elements of your China market entry and ongoing business. To be successful in China, your firm will face these elements in terms of explicable and solvable activities. Research into data theory and perceptual cultural differences between your firm and your Chinese counterparts adds magnitude to your China overall business strategy and mandatory and essential negotiations.
