From Alliance to Union Joseph A. Kéchichian, 2016-05-24 After the conservative Arab Gulf Monarchies Bahrain Kuwait Oman Qatar Saudi Arabia and the United Arab Emirates UAE joined forces on 25 May 1981 within the Gulf Co operation Council GCC few fathomed that security requirements on and around the Arabian Peninsula would be so precarious and for so long To answer their search for permanent stability Arab Gulf rulers erected a regional alliance that sought to integrate internal and regional defences as well as strengthen their existing socio economic ties Several of the monarchies even hoped that co ordination on foreign policy issues over which near unanimity existed could eventually lead to a full fledged union as envisaged in the organisation s founding charter Between 1981 and 2015 these Arab Gulf monarchies experienced major socio political transformations resulting from upheavals throughout the Arab and Muslim worlds The perceived necessity to bring about a full fledged union has come into conflict with entrenched viewpoints from regimes that value traditional military political roles and norms In this new study Joseph A Kechichian provides an evaluation of GCC States military institutions to better evaluate whether a stable alliance is capable of enduring over the next few decades and how civilian leaders perceive the role and influence of their military officers for the task Kechichian raises fundamental questions over internal regional and international threats including an existential challenge emanating from the Islamic revolutionary government of Iran and assesses how GCC professionals may be preparing to tackle them He further elucidates on the best methods to meet security challenges not only to secure political survival but also to determine whether conservative Arab Gulf regimes can flourish outside an effective alliance The volume concludes with an examination of evolving civil military relations in the GCC States

Regional and International Powers in the Gulf Security Alaa Al-Din Arafat, 2020-04-21 This book discusses the threats and challenges facing the Persian Gulf and the future security in the region providing an overview of the major regional and extra regional actors in Gulf security It argues that except for Iran no

regional or extra regional actors including the United States China India and Russia have developed a strategy for Persian Gulf security and only Turkey has expressed a willingness to provide security for the region Importantly the major threats to Persian Gulf security are nonconventional rather than external threats to Iranian hegemony or the balance of power In conclusion it predicts that the power struggle in the Persian Gulf in the coming decades will be between Iran and Turkey and not between Iran and Saudi Arabia This book is of interest to diplomats journalists international affairs specialists strategists and scholars of Gulf politics and security and defence studies

British Diplomacy in Oman and Bahrain Joe Worthington,2022-11-30 This book marks the first comprehensive examination of contemporary British influence in Oman and Bahrain analysing Britain s legacy since the official withdrawal from the Gulf in 1971 Using theories of power as a framework the book examines the development of British economic strategic and political influence in the two countries post withdrawal a topic overlooked by academics and political observers The author argues that a divergence has developed between Britain s influence in Oman a site of strategic power and Bahrain a site of economic power Focusing on the British Government private corporations and individuals topics range from the development of British Foreign Direct Investments and the presence of British oil and gas companies in the region to joint defence training exercises and the presence of Omani and Bahraini military cadets in British military academies The book also crucially assesses the increasing influence that the Gulf states are gaining over Britain as the legacy of the Residency gradually fades British Diplomacy in Oman and Bahrain will be useful to students and scholars studying politics and economics in the Gulf and Britain as well as policy analysts international relations experts and historians interested in the legacy of colonialism

Politics and Economics of the Middle East William Evans,Daniel J. Harris,2008 This edited work includes the entire spectrum of contemporary politics and economics of the Middle East The coverage is intended to deal with the Middle East its political dynamics economic policies and institutions

Foreign Relations of the GCC Countries Eman Ragab,Silvia Colombo,2018-12-07 This book examines the foreign policies of the GCC countries six years after the Arab uprisings in terms of drivers narratives actions and outcomes paying particular attention to Middle Eastern countries Iran and Western international powers The assessment focuses on current affairs but also contributes to establishing a productive link between empirical studies and the existing theoretical frameworks that help explain the increasing foreign policy activism of the GCC countries All in all the articles collected in this book shed light on and provide a more solid and fine grained understanding of how regional powers like Saudi Arabia as well as the other smaller GCC countries act and pursue their interests in an environment full of uncertainty in the context of changing regional

and global dynamics and power distribution The book brings together the articles published in a Special Issue of the International Spectator

Bahrain Congressional Research Service,2014-10-03 The uprising against Bahrain s Al Khalifa royal family that began on February 14 2011 has not achieved the goals of the mostly Shiite opposition to establish a constitutional monarchy but has defied government efforts to end the unrest Demonstrations continue although they have become smaller and less frequent over the past few years as Bahrain s Shiites seek to pressure the Sunnidominated government to increase Shiite political influence and rights The government has enacted those reforms that do not fundamentally dilute its authority and has continued to prosecute and intimidate opposition leaders The crisis has demonstrated that the grievances of the Shiite majority over the distribution of power and economic opportunities have not been satisfied by modest reforms And since 2012 violent factions of oppositionists have emerged and become more organized claiming responsibility for increasingly frequent bombings and other violent attacks primarily against security officials The government and opposition have attempted to resolve the unrest through two national dialogues July 2011 and February to December 2013 but neither reached a comprehensive solution A November 2011 report by a government appointed Independent Commission of Inquiry BICI criticized the government s actions against the unrest but outside human rights groups assessed that overall implementation of the 26 BICI recommendations has been modest Still both sides have left the door open to further dialogue and engagement and the government appears to be trying to persuade mainstream opposition groups to compete in the next parliamentary elections to be held on November 22 2014 The unrest in Bahrain has presented a policy dilemma for the Obama Administration because Bahrain is a pivotal ally It has hosted the U S naval headquarters for the Gulf since 1946 The United States has had a formal Defense Cooperation Agreement DCA with Bahrain since 1991 and has designated it a major non NATO ally There are about 7 000 U S forces in Bahrain mostly located at the naval headquarters site Apparently to pressure the government to reduce its use of force against protesters the Administration has held up some sales to Bahrain of arms that could be used for internal security purposes The Administration has continued sales of equipment that are exclusively for external defense Bahrain s opposition asserts that the United States is downplaying regime abuses in order to protect this extensive security relationship A sign that the defense relationship has been unaffected by differences over Bahrain s handling of the unrest in September 2014 Bahrain joined the U S led coalition against the Islamic State organization by conducting air strikes against Islamic State positions in Syria

The Persian Gulf States ,2006 The U S led war to overthrow Saddam Hussein virtually ended Iraq s ability to militarily threaten the region but it has produced new and unanticipated security challenges for the Persian Gulf states Saudi Arabia Kuwait Bahrain Qatar Oman and the United Arab Emirates The Gulf states which are all led by Sunni Muslim regimes fear that Shiite Iran is unchecked now that Iraq is strategically weak The Gulf states strongly resent that pro Iranian Shiite Muslim groups and their Kurdish allies who are not Arabs have obtained preponderant power within Iraq This has led most of the Gulf states particularly Saudi Arabia to provide only halting support to the fledgling government in Baghdad and to revive the focus on U S Gulf defense cooperation that characterized U S Gulf relations during the 1990s The new power structure in Iraq has had political repercussions throughout the Gulf region particularly as Sunni Shiite violence in Iraq has come to overshadow direct insurgent violence against U S forces as the key threat to Iraqi stability The Sunni Shiite tensions in Iraq apparently are spilling over into the Gulf states Shiite communities particularly that in Bahrain have been emboldened by events in Iraq to seek additional power and Sunni Shiite tension in the Gulf states is said by observers to be increasing Some Shiite communities which view themselves as long repressed are attempting to benefit politically from the Bush Administration s focus on promoting democracy and political reform in the region Domestically all of the Gulf states are undertaking substantial but gradual economic and political liberalization to deflect popular pressure and satisfy U S calls for reform However the reforms undertaken or planned do not aim to fundamentally restructure power in any of these states The Bush Administration advocates more rapid and sweeping political and economic liberalization as key to long term Gulf stability and to reducing support in the Gulf states for terrorist groups such as Al Qaeda The Administration is funding civil society programs in the Gulf states funding that is not necessarily welcomed by the Gulf leaderships but it is also promoting the bilateral free trade agreements that most of the Gulf leaders seek The Bush Administration also is working to maintain or improve postSeptember 11 cooperation with the Gulf states against Al Qaeda Some Gulf states allegedly tolerated the presence of Al Qaeda activists and their funding mechanisms prior to the September 11 attacks Fifteen of the nineteen September 11

liberalization allowed Omanis a measure of representation but did not significantly limit Qaboos role as paramount decision maker The modest reforms as well as the country s economic performance apparently did not satisfy some Omanis because unprecedented protests took place in several Omani cities for much of 2011 The apparent domestic popularity of Qaboos coupled with additional economic and political reforms as well as repression of protest actions caused the unrest to subside by early 2012 High turnout in the October 15 2011 elections for the lower house of Oman s legislative body suggested that 2011 unrest and the accelerated reforms launched in response had fueled new public activism The first ever local elections in Oman on December 22 2012 furthered the political empowerment of the electorate

Congressional Research Service: The Libr,Raphael Perl,2013-10 International terrorism has long been recognized as a serious foreign and domestic security threat This issue brief examines international terrorist actions and threats and the U S policy response Available policy options range from diplomacy international cooperation and constructive engagement to economic sanctions covert action physical security enhancement and military force A modern trend in terrorism is toward loosely organized self financed international networks of terrorists Another trend is toward terrorism that is religiously or ideologically motivated Radical Islamic fundamentalist groups or groups using religion as a pretext pose terrorist threats of varying kinds to U S interests and to friendly regimes A third trend is the apparent growth of cross national links among different terrorist organizations which may involve combinations of military training funding technology transfer or political advice Looming over the entire issue of international terrorism is a trend toward proliferation of weapons of mass destruction WMD For instance Iran seen as the most active state sponsor of terrorism has been aggressively seeking a nuclear arms capability and North Korea has both admitted to having a clandestine program for uranium enrichment and claimed to have nuclear weapons See CRS Issue Brief IB91141 North Korea s Nuclear Weapons Program Indications have also surfaced that

Al **CrS Report for Congress** Congressional Research Service: The Libr,Kenneth Katzman,2013-11 In recent years the United States has been unable to maintain an international consensus for strict enforcement of all applicable U N Security Council resolutions on Iraq but it has largely succeeded in preventing Iraq from reemerging as an immediate strategic threat to the region There is U S concern about the long term threat posed by Iraq and in the wake of the September 11 attacks the Bush Administration has emphasized regime change as the cornerstone of U S policy The exact means to implement that objective has not been announced whether it be through international sanctions and diplomacy military action or covert action The regime change policy is considered risky and difficult and is not openly supported by many other governments particularly if it involves major military action During 1991 1998 a U N Special Commission on Iraq UNSCOM made considerable progress in dismantling and monitoring Iraq s mass destruction weapons WMD programs but was unable to finish verifying Iraq s claim that it has destroyed all its weapons of mass destruction or related equipment Iraq s refusal of full cooperation with UNSCOM eventually prompted U S British military action in December 1998 All inspectors withdrew

and Iraq has been unmonitored since leaving uncertainty as to the degree to which *The Persian Gulf States* Kenneth Katzman, 2004 The Bush Administration has said that the fall of Saddam Hussein's regime in April 2003 will ease the security challenges the Persian Gulf region faces The US led war has ended Iraq's ability to produce weapons of mass destruction WMD and virtually ended any Iraqi conventional military threat to the region However some of the Persian Gulf states Saudi Arabia Kuwait Bahrain Qatar Oman and the United Arab Emirates fear that Iraq might no longer serve as a strategic counterweight to Iran and they fear that pro Iranian Shiite Muslim groups might obtain a major share of power in post war Iraq Substantial administration concern remains about Iran's WMD programs particularly what appear to be rapid advances in its nuclear program and the potential for Iran to transfer that technology or materiel to the terrorist groups it supports Over the longer term with Iraq no longer a major power and the United States likely to sharply reduce its Gulf presence once Iraq is stabilised the Gulf states might try to fashion a new security architecture for the Gulf that is based more on regional states and less on the United States On the other hand a reduction of the U S military presence in the Gulf might benefit the Gulf states by easing internal opposition to close co operation with the United States This new book presents the latest issues of the post war Persian Gulf states

Crs Report for Congress Michael John Garcia, Congressional Research Service: The Libr, Chuck Mason, 2013-11 On November 26 2007 U S President George W Bush and Iraqi Prime Minister Nouri Kamel Al Maliki signed a Declaration of Principles for a Long Term Relationship of Cooperation and Friendship Between the Republic of Iraq and the United States of America Pursuant to this Declaration the parties pledged to begin as soon as possible with the aim to achieve before July 31 2008 agreements between the two governments with respect to the political cultural economic and security spheres Among other things the Declaration proclaims the parties intention to enter an agreement that would commit the United States to provide security assurances to Iraq arm and train Iraqi security forces and confront Al Qaeda and other terrorist entities within Iraqi territory Officials in the Bush Administration have subsequently stated that the agreement will not commit the United States to militarily defend Iraq The nature and form of such a U S Iraq security agreement has been a source of congressional interest in part because of statements by General Douglas Lute Assistant to the President for Iraq and Afghanistan who suggested that any such agreement was unlikely to take the form of a treaty subject to the advice and consent of the Senate or otherwise
