

# Writing the Comparison/Contrast Paper

I. A comparison/contrast paper explains the similarities and differences between subjects to make a point about how the two compare or contrast in some significant way.

A. To compare subjects is to look for similarities; to contrast subjects is to look for differences.

1. You will often find that you can't do one without the other.

2. To find differences often requires similarities in the first place.

a. For example, to contrast two novels is to recognize already that they have the common characteristic of being novels.

b. Don't hesitate to point out similarities or differences even if you are seemingly only comparing or contrasting.

A. The point of the paper is not simply to illustrate that two subjects are the same or different; the point is to analyze how they compare or contrast and why their similarities or differences are important.

B. To simply say, "A Dell computer is different from a Gateway computer" doesn't explain how or why the difference is important.

C. The comparison/contrast paper needs to focus on the need for the comparison or contrast rather than the fact of the comparison or contrast.

D. Because the how and why are more important than the fact, a comparison/contrast paper is a good method for analyzing subjects, be they cars, medicines, or poems.

II. If you are assigned to write a comparison/contrast paper, select your subjects carefully.

A. Literally anything can be compared or contrasted to something else, but you want subjects that provide you some basis for analysis.

1. Select subjects that have enough in common that you have something to write about.
