# CONTROLLING THE DANGEROUS CLASSES

A Critical Introduction to  
the History of Criminal Justice

RANDALL G. SHELDEN

# Controlling The Dangerous Classes A History Of Criminal Justice

**Cram101 Textbook Reviews**

## **Controlling The Dangerous Classes A History Of Criminal Justice:**

Controlling the Dangerous Classes Randall G. Shelden, Pavel V. Vasiliev, 2017-12-19 Throughout history the powerful have created laws developed agencies to enforce those laws and established institutions to punish lawbreakers Maintaining the social order to their advantage resulted in the systematic repression of disadvantaged groups the dangerous classes The third edition retains a historical approach to exploring patterns of social control and through current examples demonstrates how those strategies continue today The authors trace the roots of race class and gender bias in how laws are written interpreted and applied The management of dangerous classes is not a recent phenomenon there is a long history of keeping those who derive the least advantage from the status quo and therefore pose the greatest threat under control There was and is one system of justice for the privileged and a very different system for the less privileged The criminal justice system from the law to daily operations of the police courts and corrections generally comes down hardest on those with the least amount of power and influence and is the most lenient with those with the most power and influence The book raises critical questions What is a crime What is law Whose interests are served by the law and the criminal justice system What patterns are repeated generation after generation How does the criminal justice system relate to larger issues such as social inequality social class race and gender Contemplation of these topics contributes to informed public dialogue and careful deliberation about the present state and the future of criminal justice

*Controlling the Dangerous Classes* Randall G. Shelden, 2001 This book covers the history of criminal justice from a critical perspective and explores the historical biases of the criminal justice system The overall theme of this book is that both the making of laws and the interpretation and application of these laws throughout the history of the criminal justice system has historically been class gender and racially biased Moreover one of the major functions of the criminal justice system has been to control those from the most disadvantaged sectors of the population that is the dangerous classes This theme is explored using a historical model tracing the development of criminal law through the development of the police institution the juvenile justice system and the prison system For anyone interested in the history of criminal justice

Controlling the Dangerous Classes Randall G. Shelden, 2008 This text covers the history of criminal justice from a critical perspective and explores the historical biases of the criminal justice system The overall theme of this book is that both the making of laws and the interpretation and application of these laws throughout the history of the criminal justice system has historically been class gender and racially biased Moreover one of the major functions of the criminal justice system has been to control those from the most disadvantaged sectors of the population that is the dangerous classes This theme is explored using a historical model tracing the development of criminal law through the development of the police institution the juvenile justice system and the prison system

**Studyguide for Controlling the Dangerous Classes** Cram101 Textbook Reviews, 2013-05 Never HIGHLIGHT a Book Again Virtually all testable terms concepts persons places and events are included Cram101 Textbook Outlines gives all

of the outlines highlights notes for your textbook with optional online practice tests Only Cram101 Outlines are Textbook Specific Cram101 is NOT the Textbook Accompanys 9780521673761 Outlines and Highlights for Controlling the Dangerous Classes Cram101 Textbook Reviews,2011-08-01 Never HIGHLIGHT a Book Again Virtually all of the testable terms concepts persons places and events from the textbook are included Cram101 Just the FACTS101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanys 9780205571895 *Criminology* Gregg Barak,2009 Barak provides the first integrated analysis of crime criminal justice and criminology through a global lens revealing the importance of a global perspective for the study of crime and justice in the 21st century While moving seamlessly from the micro bio psychological interactive social process to the macro cultural structural forces that shape crime and our responses to it the author presents the reader with a feast of the latest criminological ideas in this sumptuous tome **Theorizing Criminal Justice** Peter B. Kraska,2004 Previously published articles by various authors with overview and introductory material by Kraska

Criminalization, Representation, Regulation Deborah Brock,Amanda Glasbeek,Carmela Murdocca,2014-01-01 This book draws on Foucault s concept of governmentality as a lens to analyze and critique how crime is understood reproduced and challenged Journal of Contemporary Criminal Justice ,2002 *Critique of Legal Order* Richard Quinney,Randall G. Shelden,1974 Originally published thirty years ago Critique of the Legal Order remains highly relevant for the twenty first century Here Richard Quinney provides a critical look at the legal order in capitalist society Using a traditional Marxist perspective he argues that the legal order is not intended to reduce crime and suffering but to maintain class differences and a social order that mainly benefits the ruling class Quinney challenges modern criminologists to examine their own positions As ancillary agents of power criminologists provide information that governing elites use to manipulate and control those who threaten the system Quinney s original and thorough analysis of crime control bureaucracies and the class basis of such bureaucracies anticipates subsequent research and theorizing about the crime control industry a system that aims at social control of marginalized populations rather than elimination of the social conditions that give rise to crime He forcefully argues that technology applied to a war against crime together with academic scholarship is used to help maintain social order to benefit a ruling class Quinney also suggests alternatives Anticipating the work of Noam Chomsky he suggests we must first overcome a powerful media that provides a general framework that serves as the boundary of expression Chomsky calls this the manufacture of consent by providing necessary illusions Quinney calls for a critical philosophy that enables us to transcend the current order and seek an egalitarian socialist order based upon true democratic principles This core study for criminologists should interest those with a critical perspective on contemporary society **Criminal Justice in America** Randall G. Shelden,William Bud Brown,2003 Finally an alternative critical approach to introductory criminal justice Criminal Justice in America A Critical View paves the way for discussions on controversial issues of racial and economic

inequities found in our criminal justice system This text helps students understand the perspective of the typical subjects of the criminal justice system the poor the minorities women and the young all of whom comprise the majority of both victims and victimizers In the words of one reviewer Nowhere have I read an introductory text that simply tells it like it is A text of this kind is long overdue Another reviewer describes *Criminal Justice in America A Critical View* as a well written introductory criminal justice text that clearly delineates itself from the other leading texts Most important the critical perspective taken by the authors is an excellent depiction of crime and justice in America Sanders and Young's Criminal Justice Lucy Welsh,Andrew Sanders,Layla Skinns,Alpa Parmar,Ed Cape,2021 Sanders and Young s Criminal Justice is an engaging account and a rigorous critique of the criminal justice system drawing on a wide breadth of research in the field

**Theory and Methods in Criminal Justice History** Eric H. Monkkonen,1992 *Delinquency and Juvenile Justice in American Society* Randall G. Shelden,2006 The Review of Policy Research ,2002 Some vols include special issues

**Crime Control and Everyday Life in the Victorian City** David Churchill,2017-12-29 The history of modern crime control is usually presented as a narrative of how the state wrested control over the governance of crime from the civilian public Most accounts trace the decline of a participatory discretionary culture of crime control in the early modern era and its replacement by a centralized bureaucratic system of responding to offending The formation of the new professional police forces in the nineteenth century is central to this narrative henceforth it is claimed the priorities of criminal justice were to be set by the state as ordinary people lost what authority they had once exercised over dealing with offenders This book challenges this established view and presents a fundamental reinterpretation of changes to crime control in the age of the new police It breaks new ground by providing a highly detailed empirical analysis of everyday crime control in Victorian provincial cities revealing the tremendous activity which ordinary people displayed in responding to crime alongside a rich survey of police organization and policing in practice With unique conceptual clarity it seeks to reorient modern criminal justice history away from its established preoccupation with state systems of policing and punishment and move towards a more nuanced analysis of the governance of crime More widely the book provides a unique and valuable vantage point from which to rethink the role of civil society and the state in modern governance the nature of agency and authority in Victorian England and the historical antecedents of pluralized modes of crime control which characterize contemporary society

**Criminal Justice Review** ,2006 **Criminal Justice** Steven P. Lab,Marian Rebecca Williams,Jefferson E. Holcomb,Melissa W. Burek,William R. King,Michael E. Buerger,2008 *Criminal Justice The Essentials* is an innovative alternative to large overwhelming texts that attempt to cover every conceivable issue a goal that cannot realistically be accomplished in a single academic term Ideal for introductory courses in criminal justice this volume covers all the fundamental issues faced by law enforcement the courts corrections and juvenile justice but leaves detailed specifics and tangential topics to the discretion of instructors to cover in class This approach provides instructors with a great deal of

flexibility in orienting their courses as they can use whatever supplementary materials they feel are most suitable Each chapter covers the background current issues and problems and operational challenges of the subject area All important materials are incorporated into the normal flow of the text with abundant examples but a minimum of sidebars and highlights Therefore students are not forced to sift through encyclopedic amounts of material in order to determine what is the most significant since only the essentials are presented Timely data and current examples sustain student interest The text is also supplemented by a Companion Website and an Instructor s Manual      **The Covert Cage of Power** Janet LaVonne Hill,2003

The Rich Get Richer and the Poor Get Prison Jeffrey H. Reiman,2004 What if our criminal justice system is biased against the poor from start to finish from the definition of what constitutes a crime through the process of arrest trial and sentencing In this best selling text the author argues that actions of well off people such as the refusal to make workplaces safe refusal to curtail deadly pollution promotion of unnecessary surgery and prescriptions for unnecessary drugs cause occupational and environmental hazards to innocent members of the public and produce as much death destruction and financial loss as so called crimes of the poor However these crimes of the well off are rarely treated as severely as those of the poor Reiman documents the extent of anti poor bias in arrest conviction and sentencing practices and shows that the bias is conjoined with a general refusal to remedy the causes of crime poverty lack of education and discrimination As a result the criminal justice system fails to reduce crime The author uses numerous studies and examples to illustrate his points and difficult concepts are explained in a non technical manner The book provokes thought and discussion even among people who disagree with its content One reviewer describes the text as one of the most outstanding critiques of the criminal justice process a book that needed to be written and needs to be published again and again a text as relevant today as when first published in 1979
