Cool Science Activities At Home:

Make Science Fun: Experiments Jacob Strickling, 2017-11-06 Make Science Fun 2 intended for an older more serious age group of 8-15 is designed for children to do actual science experiments not just science activities at home. Most science experiment books aren't experiment books at all. They mostly contain fun science activities which are fun to do, help learn science, but a fun science activity isn't always an experiment. A science experiment sets out to answer a question or solve a problem using a fair and controlled test. To count as a science experiment, you need to take measurements, make observations, and control variables. With space to write hypotheses, record results, make observations, and draw graphs required. Make Science Experiments is a strong foundation on which to build student awareness of the importance of science in everyday lives. **SELLING POINTS** Science experiments for the kitchen, garage, or workshop, bathroom, and garden. Bonus projects perfect for a science fair or school project. Projects using only basic products that can be found in every home kitchen or bathroom. Make Science Fun banishes the science is boring stereotype through fun experiments that children can do alone or with friends or parents. The author's YouTube channel *Science Experiments for Kids: Fun and Fantastic Projects to Improve Children's Creativity (Activity Book for Kids)* Crystal Chottut, 2021-03-20 55% off bookstores discount retail price now at 27.95 instead of 35.95. Kids, have you ever had a cool science demonstration at school and wanted to learn more about it at home? Have you ever wondered about something and thought your parents or caregivers could help you learn more about it? Or are you just interested in science and want to learn more about how it works using simple everyday items from home? This book is going to be great for you. It's a simple explanation of 20 of the coolest science experiments to do from home using items that are usually found in an average household. There are a ton of things to learn from this book, and the experiments are fun and will teach you something about science you probably didn't already know. Get ready to impress your teacher and classmates. Make sure that you have an adult help you with the experiments included in this book. Grownups are great at helping you learn and will make sure that all of these experiments are done safely and correctly. Each of the activities can be done with items generally found in your home or can be purchased at a low cost at a local pharmacy or grocery store. They are all safe and non-toxic, however, proper safety measures should be taken to show children how it is essential always to be protected and prepared. This book covers experiments to learn about the following: Biology, Physics, Earth, Air, and Gases, Water, and Liquids, Color, Sound, and Music, Art, Plants, and Seeds. And much more. Enjoy the experiments and have fun teaching your children about science and knowing they are enjoying it. Get your copy now. [Steve Spangler's Super-Cool Science Experiments for Kids](#) Steve Spangler, 2021-08-24 This book presents the most amazing, visually stunning experiments you can do in your home with equipment you likely have on hand right now.
