Washington,Ramon B. Goings,Malik S. Henfield,2020-03-01 Although teachers school counselors and administrators are all situated within educational settings tasked with supporting students educational development rarely do these professionals have sufficient opportunities to learn from and collaborate with one another before entering these schools Unfortunately

many of these professionals are unaware of the primary and secondary responsibilities their peers and colleagues assume. What's worse, this lack of insight potentially compromises the extent to which educational leaders can forge effective partnerships that benefit students from the most alienated, disenfranchised, and marginalized communities e.g. Black children in under-resourced schools. While the educational discourse has included recommendations for maximizing interactions between these educational professionals, the collective voices of teachers, school counselors, and administrators in regards to these issues has not been adequately examined. Thus, this book is a compilation of manuscripts and studies that explore partnerships and strategies educators and educational leaders use to produce positive socio-educational outcomes for Black students in various contexts. *Creating and Sustaining Effective K-12 School Partnerships: Firsthand Accounts of Promising Practices* is unique because it illuminates examples of effective school-community partnerships that foster positive student outcomes. *Creating and Sustaining Effective K-12 School Partnerships: Firsthand Accounts of Promising Practices* is intended as a practical text for committed educational leaders at different professional points e.g. practicing teachers, pre-service school counselors, and teachers who are eager to transform the current educational trajectory of Black children through interventions that show promise. *Build It, Make It, Do It, Play It!* Catharine Bomhold, Terri Elder, 2014-06-30. A valuable one-stop guide to collection development and finding ideal subject-specific activities and projects for children and teens. For busy librarians and educators finding instructions for projects, activities, sports, and games that children and teens will find interesting is a constant challenge. This guide is a time-saving one-stop resource for locating this type of information, one that also serves as a valuable collection development tool that identifies the best among thousands of choices and can be used for program planning, reference, and readers advisory and curriculum support. *Build It, Make It, Do It, Play It* identifies hundreds of books that provide step-by-step instructions for creating arts and crafts, building objects, finding ways to help the disadvantaged, or engaging in other activities ranging from gardening to playing games and sports. Organized by broad subject areas: arts and crafts, recreation, and sports, including indoor activities and games, and so forth, the entries are further logically organized by specific subject, ensuring quick and easy use. **First Place Science Fair Projects for Inquisitive Kids** Elizabeth Snoko Harris, 2005.
