this percentage the other guides or web site with random questions and covering all material might be best A book might be better for your student than the web sites for two reasons 1 The more common and easiest questions are using a ruler to measure The web designers don t know the size of your computer screen and can t determine if the student has measured correctly We can get a high percentage of these problems easily 2 When studying on a computer there are too many websites with the answers With a book parents can have greater assurance the work is being done This book is developed by a trained professional out of concern It is not the product of a large publishing house It is the results of one person who wants to help Best Regards Mark Shannon *180 Days™: Science for Sixth Grade* Bebra Bayne, Lauren Homayoun, 2018-04-02 Help sixth grade students improve their science knowledge with fun and effective daily practice activities 180 Days Science for Sixth Grade Uses daily activities to explore the three strands of science life physical and earth and space Motivates students with quick independent learning activities focusing on building content knowledge analyzing data and communicating results Makes at home learning whole class instruction or small group support quick and easy Includes standards based activities easy to follow instructions and an answer key to quickly assess student understanding Parents appreciate the teacher approved activity books that keep their child engaged and learning Great for homeschooling to reinforce learning at school or prevent learning loss over summer Teachers rely on the daily practice workbooks to save them valuable time The ready to implement activities are perfect for daily morning review or homework The activities can also be used for intervention skill building to address learning gaps Aligns to Next Generation Science Standards NGSS Science, Grade 2 Crct Assessment Science, 2008
