The diagram illustrates the sequence of interactions for retrieving a student grade. It involves four lifelines: Web Page, Class, School Login, and Server. The process begins with the Web Page sending a 'Request Course Grade' message to the Class. The Class then sends 'Message1' to the School Login, which in turn sends 'Message12' to the Server. The Server returns 'Message10' to the School Login, which then sends 'Message13' back to the Class. The Class then sends 'Message2' back to the Web Page. Subsequently, the Class sends 'Message4' to the School Login, which sends 'Message11' to the Server. The Server returns 'Message14' to the School Login, which then sends 'Message5' back to the Class. The process concludes with the Class having completed its interactions.
