Creative Confidence Kevin Noble, 2014-03-17 Creative confidence is about designing and living an extraordinary life Does this sound interesting and worth pursuing We were inspired by creative confidence by brothers Tom and David Kelley and the experience of fulfillment from exercising our own creativity Everyone has a huge reservoir of creativity within them The question is whether or not you're tapping into the reservoir and getting into action Many people have yet to discover their creative talents and therefore can't begin to tap into them Our intention is to provide resources and inspiration to help you find your creative talent so you can start expressing it with confidence In the same way that companies engage in oil and gas exploration we want you to engage in a creative exploration Exploration and discovery is not enough however as you need to develop your confidence to bring forth creativity and manifest it through art books professional career or the reinvention of your life Creativity is like the engine for being fulfilled so you don't wake up 25 years later wondering where your life went or why you're not fulfilled Your confidence is like the fuel to keep the creative engine going The combination of your creativity the pure potentiality of everything that's unique inside of you and confidence the ability to actually express that pure potentiality is the recipe for success in every area of your life Expression of creativity is the highest fulfillment of the human spirit If you labeled yourself as a non creative type then it's time to shatter that paradigm If you see yourself as highly creative expressing yourself through writing woodworking painting or any other medium then this book will affirm your creative pursuits and inspire you to go to the next level Start your journey and share some of your success stories We want people to find their creative confidence to share their stories and inspire others along the way
