The most common examples of creative writings are blog entries, novels, short stories, scripts seen on television screens, stage plays, music, and so many more. Advertisements on televisions and billboard ads are great examples of creative writing products, and in fact everywhere you look is surrounded by products of creative writing. The beauty of creative writing is that it allows the author to exercise his imagination and let it run wild while creating beautiful output that either amuses, inspires, or informs their readers. Most blogs or online journals, which have become wildly popular and accepted in this common day and age, are great examples of creative writing. Creative writing is a great way for anyone of any age and gender to express themselves and create a voice that needs to be heard.
