Critical Interventions In Caribbean Politics And Theory Caribbean Studies Series:

Critical Interventions in Caribbean Politics and Theory Brian Meeks, 2019-11-14 A well known public intellectual's intense engagement with politics in the contemporary Caribbean *Critical Interventions in Caribbean Politics and Theory* Brian Meeks, 2014-11-27 These essays by Brian Meeks, a noted public intellectual in the Caribbean, reflect on Caribbean politics, particularly radical politics and ideologies in the postcolonial era. But his essays also explain the peculiarities of the contemporary neo-liberal period while searching for pathways beyond the current plight. In the first chapters titled 'Theoretical Forays' Meeks makes a conscious attempt to engage with contemporary Caribbean political thought at a moment of flux and search for a relevant theoretical language and style to both explicate the Caribbean's recent past and confront the difficult conditions of the early twenty-first century. The next part, 'Caribbean Questions', both retrospective and biographical, retraces the author's own engagement with the University of the West Indies (UWI), the short-lived but influential Caribbean Black Power movement, the work of seminal Trinidadian thinker and activist Lloyd Best, Cuba's relationship with Jamaica, and the crisis and collapse of the Grenadian Revolution. As evident in its title, 'Jamaican Journeys', the concluding section excerpts and extracts from a longer, more sustained engagement with Jamaican politics and society. Much of Meeks' argument builds around the notion that Jamaica faces a crucial moment as the author seeks to chart and explain its convoluted political path and dismal economic performance over the past three decades. Meeks remains surprisingly optimistic as he suggests that despite the emptying of sovereignty in the increasingly globalized world, windows to enhanced human development might open through policies of greater democracy and popular inclusion. *Political Life in the Wake of the Plantation* Deborah A. Thomas, 2019-11-08 In 2010, Jamaican police and military forces entered the West Kingston community of Tivoli Gardens to apprehend Christopher 'Dudus' Coke, who had been ordered for extradition to the United States on gun and drug running charges. By the time Coke was detained, somewhere between seventy-five and two hundred civilians had been killed. In *Political Life in the Wake of the Plantation*, Deborah A. Thomas uses the incursion as a point of departure for theorizing the roots of contemporary state violence in Jamaica and in post-plantation societies in general. Drawing on visual, oral, historical, and colonial archives, Thomas traces the long-term legacies of the plantation system and how its governing logics continue to shape and replicate forms of violence. She places affect at the center of sovereignty to destabilize disembodied narratives of liberalism and progress and to raise questions about recognition, repair, and accountability. In tying theories of politics, colonialism, race, and affect together with Jamaica's history, Thomas presents a robust framework for understanding what it means to be human in the plantation's wake. *Revolution Beyond the Event* Charlotte Al-Khalili, Narges Ansari, Myriam Lamrani, Kaya Uzel, 2023-05-02 *Revolution Beyond the Event* brings together leading international anthropologists alongside emerging scholars to examine revolutionary legacies from the MENA region, Latin America, and the Caribbean. It explores the idea that revolutions have varied afterlives that complicate the assumptions about their duration, pace, and progression, and

argues that a renewed focus on the temporality of radical politics is essential to our understanding of revolution Approaching revolution through its relationship to time the book is a critical intervention into attempts to define revolutions as bounded events that act as sequential transitions from one political system to another It pursues an ethnographically driven rethinking of the temporal horizons that are at stake in revolutionary processes arguing that linear views of revolution are inextricably tied to notions of progress and modernity Through a careful selection of case studies the book provides a critical perspective on the lived realities of revolutionary afterlives challenging the liberal humanist assumptions implicit in the modern idea of revolution and reappraising the political agency of people caught up in revolutionary situations across a variety of ethnographic contexts *Resources in Education* ,1997 **Cuba Represent!** Sujatha Fernandes,2006-10-25 The government has allowed vocal criticism of its policies to be expressed within the arts After the Postcolonial Caribbean Brian Meeks,2023-01-20 Examines the history and possible futures of radical politics in the postcolonial Caribbean A book of rare beauty Bill Schwarz Professor at Queen Mary University of London Across the Anglophone Caribbean the great expectations of independence were never met From Black Power and Jamaican Democratic Socialism to the Grenada Revolution the radical currents that once animated the region recede into memory More than half a century later the likelihood of radical change appears vanishingly small on the horizon But what were the twists and turns in the postcolonial journey that brought us here And is there hope yet for the Caribbean to advance towards more just democratic and empowering futures After the Postcolonial Caribbean is structured into two parts In Remembering Brian Meeks employs an autobiographical form drawing on his own memories and experiences of the radical politics and culture of the Caribbean in the decades following the end of colonialism In Imagining he takes inspiration from the likes of Edna Manley George Lamming and Stuart Hall in reaching toward a new theoretical framework that might help forge new currents of intellectual and political resistance Meeks concludes by making the case for reestablishing optimism as a necessary cornerstone for any reemergent progressive movement *Latin American Politics* ,1984 Guide American Anthropological Association,2008 Whitaker's Books in Print ,1998 *Resources in Education* ,1996 Cities in a Globalizing World United Nations Centre for Human Settlements,2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company *Globalizing Cultural Studies* Cameron McCarthy,2007 The contributors to Globalizing Cultural Studies Ethnographic Interventions in Theory Method and Policy take as their central topic the problematic status of the global within cultural studies in the areas of theory method and policy and particularly in relation to the intersections of language power and identity in twenty first century post 9 11 culture s Writing against the Anglo centric ethnographic gaze that has saturated various cultural studies projects to date contributors offer new interdisciplinary autobiographical ethnographic textual postcolonial poststructural and political economic approaches to the practice of cultural studies This edited volume foregrounds twenty five groundbreaking essays plus a provocative foreword and an insightful afterword in which the authors

show how globalization is articulated in the micro and macro dimensions of contemporary life pointing to the need for cultural studies to be more systematically engaged with the multiplicity and difference that globalization has proffered
