limitations of existing counter radicalisation machineries for addressing relatively new types of extremism including amongst right wing activists Through examining these questions the book draws on a range of contemporary case studies spanning from counter radicalisation in the UK Germany and Denmark through to detailed analyses of specific preventative initiatives in Australia and the United States Conceptually the chapters engage with a range of critical approaches including discourse theory autoethnography and governmentality This book will be of much interest to students of radicalisation critical terrorism studies counter terrorism sociology security studies and IR in general Methodologies in Critical Terrorism Studies Alice E. Finden, Carlos Yebra López, Tarela Ike, Ugo Gaudino, Samwel Oando, 2024-01-04 This interdisciplinary book presents an intervention into methodological practices in the subfield of Critical Terrorism Studies and features established and early career scholars The volume interrogates the role that research methods play in shaping the sub discipline of Critical Terrorism Studies CTS It responds to two major methodological gaps within CTS 1 the dearth of Global South cases and voices and decolonial and feminist approaches and 2 the lack of engagement with traditional disciplines and quantitative methods Together authors demonstrate that interdisciplinary methodological dialogues can open up new possibilities for researchers seeking pathways towards and definitions of emancipation social justice and freedom from violence Simultaneously the book shows that by focusing on the possibilities that methodologies open up to us and by maintaining a commitment to reflexive practice we expand our understandings of what are legitimate and acceptable forms of research thus challenging the Critical Terrorism Studies divide The chapters draw upon a wide range of empirical cases including Nigeria Kenya France Brazil and the UK focusing on three key issues within Critical Terrorism Studies its own relationship with and perpetuation of epistemic violence decolonial postcolonial Global South feminist and queer approaches and more traditional approaches and methods as a means to interrogate the methodological binary between Critical Terrorism Studies and Terrorism Studies This book will be of much interest to students of critical terrorism studies counter terrorism security studies and International Relations in general Terrorism and Policy Relevance James Fitzgerald, Nadya Ali, Megan Armstrong, 2018-11-08 This book explores the interrelationship between terrorism and policy relevance from a range of critical perspectives In particular it questions the politics of policy relevance that is it interrogates how epistemological and practical pressures to produce policy relevant research shapes prevalent understandings of counter terrorism and vice versa It also reflects on Critical Terrorism Studies CTS relationship to policy relevance Should CTS eschew engagement with policy relevance and maintain a position outside the orthodoxy or are CTS scholars uniquely positioned to offer meaningful alternatives to contemporary counterterrorism practices Read thus the question of policy relevance is central to CTS identity and represents an essential juncture as to how associated scholarship might develop into the future Bringing Normativity into Critical Terrorism Studies Alice Martini, 2020-12-17 This book explores and inquiries into the interrelation between normativity and Critical Terrorism Studies CTS from a wide range of critical views The volume draws together authors with

Radicalisation James R. Lewis, Akil N. Awan, 2024-03 A comparative multidisciplinary interrogation of how people across the world become extremists of all kinds and how different scholarly fields study and theorize this process

Anti-terrorism, citizenship and security Lee Jarvis, Michael Lister, 2015-07-01 This book explores how different publics make sense of and evaluate anti terrorism powers within the UK and the implications of this for citizenship and security Drawing on primary empirical research the book argues that whilst white individuals are not unconcerned about the effects of anti terrorism ethnic minority citizens including but not only those identifying as Muslim believe that anti terrorism powers have impacted negatively on their citizenship and security This book thus offers the first systematic engagement with vernacular or everyday understandings of anti terrorism policy citizenship and security It argues that while transformations in anti terrorism frameworks impact on public experiences of security and citizenship they do not do so in a uniform homogeneous or predictable manner At the same time public understandings and expectations of security and citizenship themselves shape how developments in anti terrorism frameworks are discussed and evaluated This important new book will be of interest to researchers and students working in a wide range of disciplines including Political Science International Relations Security Studies and Sociology

The Normalisation of Exceptional Counterterrorism Powers Marine Guéguin, 2025-06-30 This book investigates the framing of the terrorist threat in France from 2015 to 2020 as an exceptional challenge which requires a special public security response The book examines how French political actors framed the terrorist threat in French political discourse from an exceptional challenge to a permanent routine threat It provides an in depth critical discourse analysis of the French political narratives surrounding the activation of the *tat d urgence* state of emergency following the 2015 Charlie Hebdo and Paris terrorist attacks and traces this narrative until 2020 The study explores the securitisation desecuritisation framework showing how the normalisation of emergency powers reflects the ongoing re construction of terrorism within French political contexts The work demonstrates the importance of threat framing and the securitisation of terrorism by considering the colonial legacies embedded in French counterterrorism CT policies By investigating the intersection of CT political discourse temporality and colonial continuity the book challenges traditional notions of exceptionalism in securitisation It argues that the routinisation of counterterrorism measures highlights the impossibility of fully desecuritising terrorism re establishing the status quo revealing how these measures are deeply rooted in France s colonial past This book will be of interest to students of Terrorism Studies Critical Security Studies French politics and International Relations

Conceptualizing Terrorism Anthony Richards, 2015 Conceptualising Terrorism argues that while there have always been good reasons for striving for a universally agreed definition of terrorism there are further reasons for doing so in the post 9 11 environment notwithstanding the formidable challenges that confront such an endeavour

counterterrorism based on emancipation and non violence Critical Terrorism Studies CTS scholars have produced wide ranging and rich critiques of terrorism related research as well as state counterterrorism policies and practices This work aims to fill in a gap in the current literature by constructing an original and specifically CTS model of counterterrorism The model outlines the basic assumptions priorities principles strategies and tactics measures and evaluation of counterterrorism It challenges prevalent models of counterterrorism through a radical rethinking of the ontology epistemology and the agenda of counterterrorism The model aims to prevent future acts of terrorism by 1 re conceptualising how we study and understand terrorism and 2 suggesting that our efforts to counter and prevent terrorism must commensurate with the goals we want to achieve Essentially this involves a commitment to emancipation and a rejection of violence as a tool The second part of the book is a case study of Norwegian counterterrorism which shows how the theory and model developed in the book can be used This is the first substantial analysis of Norwegian counterterrorism in almost ten years and produces encouraging findings which support the potential for non violent solutions to terrorism This book will be of particular interest to students of terrorism and counterterrorism critical security studies and international relations in general

Arguing

Counterterrorism Daniela Pisoiu, 2014-04-03 This book offers a multifaceted analytical account of counterterrorism argumentative speech Traditionally existing scholarship in this field of research has taken a selective focus on issues and actors concentrating mainly on US state discourse after 9 11 However this approach ignores the fact that there was counterterrorism speech before 9 11 and that there are other countries and other actors who also actively engage in the counterterrorism discursive field both within and outside of the Western world Addressing several thematic chronological and methodological gaps in the current literature *Arguing Counterterrorism* offers a dynamic perspective on counterterrorism argumentative speech Over the course of the volume the authors tackle the following key issues first historical and cultural continuity and change Second the phenomenology of counterterrorism speech its nature instrumentalisation implications and interactions between the various actors involved The third theme is the anatomy of counterterrorism speech namely its political cultural and linguistic constitutive elements Employing a multi disciplinary framework the authors explore these issues through a geographically and historically diverse range of case studies resulting in a book that broadens the perspective of counterterrorism argumentation analysis This book will be of much interest to students of critical terrorism studies counterterrorism discourse analysis security studies and IR

CTS and Right-Wing Terrorism and Counterterrorism Alice Martini, Raquel da Silva, 2023-08-22 This volume is a timely contribution to the current debates and potential efforts to study and counter the phenomena of extreme right violence in a period when the rise of right wing extremism is being witnessed across the globe Against this backdrop the violent radicalisation and extremism of individuals and groups belonging to the extreme right threaten to undermine and destabilize societies and democratic orders leaving a research gap that has only started to be filled in recent years but that is still quite wide when it comes to counter terrorism approaches to extreme right violence Learning from the past and trying to avoid similar mistakes this volume creates a much

needed space for open honest and ethical debate around countering extreme right violence answering social and political calls to debate how to counter this kind of violence This volume brings together a group of interdisciplinary scholars to contribute to national and international academic and policy debates about countering extreme right violence from a critical perspective Volume II focuses particularly on exploring how extreme right violence has been approached in different spatial and temporal contexts examining how the criminal justice system has dealt with the threat of and actual violence perpetrated by the extreme right deconstructing current counter terrorism approaches from feminist and gender perspectives and formulating a critical approach to countering extreme right violence It will be of great interest to all students of terrorism studies security studies international relations and political science in general The chapters in this book were originally published in *Critical Studies on Terrorism* *Critical Terrorism Studies at Ten* Richard Jackson, Harmonie Toros, Lee Jarvis, Charlotte Heath-Kelly, 2020-04-28 Critical Terrorism Studies emerged around 2007 in the context of the rapidly intensifying War on Terror It was in this era that terrorism became a growth industry which generated a huge amount of academic research as well as social and political activity Yet a yawning gap developed between the actual material threat posed by terrorists and the level of investment and activity devoted to responding to this threat Similarly the quality of terrorism research was noticeably weak and lacking in methodological rigour Critical Terrorism Studies set out to explore the exceptional treatment of political violence to challenge the political manipulation of terrorism fears and increase in draconian anti terrorism legislation and to address some of the conceptual and methodological failings of terrorism research In the 10 years since the journal *Critical Studies on Terrorism* was launched that context and mission remains as important as ever This volume looks back on the achievements and failures of Critical Terrorism Studies in this period as well as collecting state of the art research into terrorism discourse queerness and the War on Terror the Prevent Strategy epistemology in terrorism studies state repression the ambiguous ends of militant campaigns the epistemology of preventative counterterrorism and the question of non violent responses to terror The chapters originally published in a special issue in *Critical Studies in Terrorism*
