Echoes Josephine "Jo" McComas Fulks, 2013-11-25 This story is a true depiction of life during and following the Great Depression era when much of the populace was suffering from the lack of bare necessities Scores of those living in that period of time were deprived of the very basics unless of course they could live off the land as the farmers did The government controlled some items such as sugar and coffee and only a limited supply was allotted according to the availability and the level of need Other hardships endured included the mode of transportation the primitive methods used in farming and the effort to provide for the general well being of families some of them having several members The story takes the author through the survival marriage and raising her own family as the effects of the depression were waning
