Global One Health and Infectious Diseases William E. Sander, 2025-01-24. While many terms relate to One Health, the idea remains the same: to think outside a chosen area of specialty and work collaboratively as part of a team to improve health status around the world. This involves the collective effort of physicians, veterinarians, public health practitioners, ecologists, anthropologists, social workers, economists and many others. Collectively, these are the Global One Health practitioners. Through the lens of infectious disease, this book brings together the diverse range of topics necessary to be an effective global health practitioner at the intersection of human and animal health, particularly in developing countries. It explores what an aspiring or mid-career practitioner should be aware of when working with infectious diseases, including technical skills, cultural competency, capacity building, big data and understanding the landscape and history of global health. Each chapter focuses on a specific area of necessary knowledge with background information, case examples and resources to use moving forward. An important reference for upper-level undergraduate students, graduate students and early practitioners in human, animal and public health, this text highlights the competencies rather than focusing on the problems in Global One Health. It provides a blueprint of areas that the reader should pay attention to, particularly in the realm of infectious diseases. Chapter 13, One Health Education, Training and Capacity Building, is available to read Open Access at <https://www.taylorfrancis.com/books/9781032140674>.

OECD Public Governance Reviews: The OECD Reinforcing Democracy Initiative Monitoring Report - Assessing Progress and Charting the Way Forward OECD, 2024-10-17. As governments grapple with environmental and digital transitions and an erosion of trust in public institutions, bold action is needed to build people's trust and strengthen democracy. To this end, the OECD launched its Reinforcing Democracy Initiative in 2022. This report offers an overview of collective progress made in OECD countries across the five pillars of the Initiative and their respective action plans: combatting mis- and disinformation, enhancing participation, representation and openness in public life, including a focus on gender equality, stronger open democracies in a globalised world, governing green and digital democracy. In each of these areas, the report provides recent cross-country indicators of progress, when available, and highlights best practices from countries. The report draws on OECD and other data to assess progress, including the 2024 results of the OECD Survey on the Drivers of Trust in Public Institutions. It also identifies gaps in action and points to a set of common priorities for moving forward together.
