

Oreo Cell Cycle Student Worksheet

Materials Needed:

- 6 Oreo Cookies (per group)
- 2 Tablespoons assorted color rod-shaped candy sprinkles
- 6 Toothpicks (2 per group member)
- 3 paper towels (1 per group member)

Directions:

- 1) Using your textbook or other classroom resources, find an image of the cell cycle that includes: **interphase**, **mitosis** (**prophase**, **metaphase**, **anaphase** and **telophase**) and **cytokinesis**.
- 2) Using the image you found, you will create a model for each stage of the cell cycle listed above.
- 3) If your group has two members, each member will model three stages. If your group has three members, each member will model two stages of the cell cycle.
- 4) Carefully remove the top cookie from all six cookies by twisting the top cookie in a circular motion while holding the bottom cookie with your other hand. The bottom cookie with the cream filling attached will be used for your models (Note: You may eat the top cookie, or lay it aside.).
- 5) The cream filling represents the cytoplasm of the cell. You must create the structures inside the cell that play a role in the cell cycle using candy sprinkles.
- 6) The toothpicks may be used to remove or divide the cytoplasm or to move around the sprinkles.
- 7) Once you have created a model for each stage of the cell cycle, summarize what is happening in each stage in the table below.

Stage		Summary of Important Events
Interphase		The cell grows, duplicates DNA, and double checks if the DNA was duplicated correctly.
Prophase	<div>Mitosis</div>	The chromosomes and spindle fibers become visible.
Metaphase		The chromosomes line up in the middle of the cell so they can be pulled to the opposite sides of the cell.
Anaphase		The spindle fibers pull the chromatids to the opposite sides of the cell.
Telophase		Two new nuclei form and the cell begins to separate.
Cytokinesis		The cell splits into two.

Neighbors and Other Stories Diane Oliver, 2024-02-13 A bold and haunting debut story collection that follows various characters as they navigate the day to day perils of Jim Crow racism from Diane Oliver a missing figure in the canon of twentieth century African American literature with an introduction by Tayari Jones A remarkable talent far ahead of her time Diane Oliver died in 1966 at the age of 22 leaving behind these crisply told and often chilling tales that explore race and racism in 1950s and 60s America In this first and only collection by a masterful storyteller finally taking her rightful place in the canon Oliver's insightful stories reverberate into the present day There's the nightmarish *The Closet on the Top Floor* in which Winifred the first Black student at her newly integrated college starts to physically disappear *Mint Juleps not Served Here* where a couple living deep in a forest with their son go to bloody lengths to protect him *Spiders Cry without Tears* in which a couple Meg and Walt are confronted by prejudices and strains of interracial and extramarital love and the high tension titular story that follows a nervous older sister the night before her little brother is set to desegregate his school These are incisive and intimate portraits of African American families in everyday moments of anxiety and crisis that look at how they use agency to navigate their predicaments As much a social and historical document as it is a taut engrossing collection *Neighbors* is an exceptional literary feat from a crucial once lost figure of letters
