**Diversity in the Power Elite** Richard L. Zweigenhaft, G. William Domhoff, 2018-01-15 Diversity in the Power Elite is a provocative analysis of the diversity that exists and doesn't exist among America's powerful people Richard L. Zweigenhaft and G. William Domhoff examine the progress that has been made and where progress has stalled for women African Americans Latino as Asian Americans LGBTQ people and Jewish people among what C. Wright Mills called the power elite or those with significant financial or political influence in the U.S. The third edition of this classic text has been fully revised and updated throughout. It highlights examples of profound change including the presidential election of Barack Obama the nation's first black president as well as the growing acceptance of LGBTQ people. And it also highlights the many ways that the promise of diversity has stalled or fallen short that the playing field for non-white males and women is far from level. Filled with case studies that illuminate deep research the book reveals a critical examination of the circles of power and discusses the impact of diversity on the way power works in the U.S.

**Not by Bread Alone** Robert Nalbandov, 2016 Since its independence in 1991 Russia has struggled with the growing pains of defining its role in international politics. After Vladimir Putin ascended to power in 2000 the country undertook grandiose foreign policy projects in an attempt to delineate its place among the world's superpowers. With this in mind Robert Nalbandov examines the milestones of Russia's international relations since the turn of the twenty-first century. He focuses on the specific goals engagement practices and tools used by Putin's administration to promote Russia's vital national and strategic interests in specific geographic locations. His findings illuminate Putin's foreign policy objective of reinstituting Russian global strategic dominance. Nalbandov argues that identity-based politics have dominated Putin's tenure and that Russia's east-west split is reflected in Asian-European politics. Nalbandov's analysis shows that unchecked domestic power an almost exclusive application of hard power and determined ambition for unabridged global influence and a defined place as a world superpower are the keys to Putin's Russia.
