

5 Steps to Self-Publishing

1

Write the Book

Finish writing first and have it professionally edited and proofread.

2

Add Media & Interactive Content

From images to videos, audio and widgets, enrich your ebook with interactive content.

3

Design the Cover & Layout

Eye-catching designs for the cover are critical for sales, while the internal layout and font are essential for reader comfort.

4

Format & Export

Once your ebook is ready to publish, export it from your authoring tool in the appropriate format for your distribution platforms.

5

Publish & Sell

Publish and sell your ebooks directly from your site and social media, or via aggregators and self-publishing platforms.

Best Strategies For Easy Self Publishing Guide:

Seven Easy Steps to Self Publishing Terence Tam, 2007 **Top 10 tips to become a best-selling author** Nataraj Sasid, 2020-07-11 This book is a humble attempt to help the scores of authors and writers who wish to have their works published All the authors who have probably run from pillar to post trying to find publishing solutions for the books they so diligently wrote I have tried to make this as an excerpt from all my learning during my years of working in the publishing industry It wouldn't be an overstatement to say that you can use this book as a ready reckoner for all your queries on publishing your book Whether you're looking to have a regular paper book or an electronic book there is something for all of you Every chapter has been designed with categorized information So anytime you can go back to any chapter for what is required A book is a gift to the reader and all I wish is that every reader of this book be benefited with the information I have tried to pass on Just a piece of parting advice writing is an art and all of you are artists The world wants to behold this art Keep writing Nataraj Sasid Write. Publish. Repeat. (The No-Luck-Required Guide to Self-Publishing Success) Sean M Platt, Johnny B. Truant, David Wright, 2014-01-02 Are you ready to start making a full time living with your stories Self publishing isn't as hard as most authors make it Write Publish Repeat was written to save you from unnecessary struggle Yes there is a lot to learn and more competition than ever before but for those storytellers who are willing to do the work then set their efforts on repeat there's never been a better time to make a living as a writer Thousands of new books are published on Amazon every single day The vast majority will never sell more than a handful of copies This is devastating for hard working authors who care about their craft and are doing all of the things they're supposed to do if they want to make it as a successful author But it's confusing out there with too many things to learn and not enough time to learn them Worse so much of the available advice comes from people who are in the business of selling advice They're either parroting what others have said are making guesses based on assumptions or anecdotal evidence or are using their personal yet minimal experience with a successful book or perhaps even a few to articulate loose strategies that often have an absurdly short shelf life This book is different Write Publish Repeat was written by successful authors who have been in the indie game since the very beginning In the last ten years we've gone from zero books to a few hundred with copies sold in the millions film and television projects in the works and hands on work with hundreds of writers like you We've also made more mistakes than we can count But we made them so you don't have to This book explains how to create stories your readers will love and will want to return to again and again It details expert methods for enhancing creativity building worlds characters and plots understanding your market right down to your ideal reader using the best tools possible to capture your draft and explains proven best practices for editing It discusses covers titles formatting pricing and publishing to multiple platforms plus a bit on getting your books into print and why that might not be a good idea But most importantly Write Publish Repeat details the psychology driven marketing plan that Sean and Johnny built to shape their stories into products that readers couldn't help
