

Study Guide

CHAPTER 1

Section 1. Population Dynamics (pages 10-107)

Key point textbooks read about population characteristics:

Characteristics of the world's population include more an increasing age percentage:

increasing percentage
population density

increasing dependence
on resources

increasing independent
migration

growth rates

Some older textbooks read that all populations have a tendency to population density

(1) population density and (2) age structure. Population density is

the number of people per unit area. Age structure is the number of people in each age group. Population density is

the number of people per unit area. Age structure is the number of people in each age group. Population density is

the number of people per unit area. Age structure is the number of people in each age group. Population density is

Key point textbooks read about population characteristics:

Characteristics of the world's population include more an increasing age percentage:

Characteristics	Increasing Dependence	Increasing Independence
1. Increasing population density		
2. Increasing dependence on resources		
3. Increasing migration		
4. Increasing age structure		
5. Increasing the number of people		

Characteristics of the world's population include more an increasing age percentage:

1. Population density (population density) and (2) age structure (age structure).

then

2. Increasing independent birth rate (population density) and (3) age structure (age structure).

then

3. the age structure, the population of people who are older than the population of people who are younger.

then

4. the population of people who are older than the population of people who are younger.
