Judiciary-Friendly Forensics of Software Copyright Infringement Bhattathiripad, Vinod Polpaya, 2014-03-31 This book discusses the forensics of software copyright infringement highlighting theoretical functional and procedural matters in the investigation of copyright infringement of software products as well as the development of forensic technologies to detect and eliminate software piracy

Judicial Deliberations Mitchel de S.-O.-L'E. Lasser, 2009 Judicial Deliberations compares how and why the European Court of Justice the French Cour de cassation and the US Supreme Court offer different approaches for generating judicial accountability and control judicial debate and deliberation and ultimately judicial legitimacy Examining the judicial argumentation of the United States Supreme Court and of the French Cour de cassation the book first reorders the traditional comparative understanding of the difference between French civil law and American common law judicial decision making It then uses this analysis to offer the first detailed comparative examination of the interpretive practice of the European Court of Justice Lasser demonstrates that the French judicial system rests on a particularly unified institutional and ideological framework founded on explicitly republican notions of meritocracy and managerial expertise Law making per se may be limited to the legislature but significant judicial normative administration is entrusted to State selected trained and sanctioned elites who are policed internally through hierarchical institutional structures The American judicial system by contrast deploys a more participatory and democratic approach that reflects a more populist vision Shunning the unifying controlling and hierarchical French structures the American judicial system instead generates its legitimacy primarily by argumentative means American judges engage in extensive debates that subject them to public scrutiny and control The ECJ hovers delicately between the institutional argumentative and republican democratic extremes On the one hand the ECJ reproduces the hierarchical French discursive structure on which it was originally patterned On the other it transposes this structure into a transnational context of fractured political and legal assumptions This drives the ECJ towards generating legitimacy by adopting a somewhat more transparent argumentative approach

Judicial Review in Equal Treatment Cases Janneke Gerards, 2005-05-01 In this study an assessment model is developed to guide courts in deciding equal treatment cases Such a model appears to be indispensable since relevant equality provisions often do not offer much guidance as to the assessment of unequal treatment This lack of guidance may lead to diverging approaches and outcomes which is undesirable from the perspective of equality and legal certainty The use of the assessment model developed in this study will improve judicial reasoning and enhance the

legitimacy of equal treatment case law The general assessment model developed in this study is based on theoretical research after the standards that should be used in assessing cases against the principle of equal treatment supplemented by an elaborate comparative analysis of the equal treatment case law in various legal systems The result of this approach is the design of an assessment model that is both theoretically sound and workable in practice The Dutch edition of this book has been awarded with the Erasmus Study Prize 2003 the Max van der Stoep Human Rights Prize and the Constitutional Law Prize The Principles of Judicial Proof John Henry Wigmore,1913 *Introduction to Law & the Legal System* Harold J. Ross,2023-03-27 Everyone did what was right in their own eyes This well known indictment rumbles across the epilogue of Judges denouncing God s people as wayward Yet understanding the source of Israel s degenerative and downward spiral comes from an oft overlooked declaration Yahweh is testing Israel s fidelity to the commandments he gave by the hand of Moses By employing covert allusions rather than explicit quotations Judges contrasts the obvious sins of Israel with veiled reminders of the law that they have abandoned In this volume Jillian Ross employs current insights from literary theory establishing a robust methodology for identifying allusions in the text Once applied the allusions to the Law especially as presented in Deuteronomy display three clear peaks the prologue Gideon narrative and epilogue The results suggest that Judges teaches a Deuteronomistic concept that the Israelites failed to obey the Torah particularly its call for covenant fidelity in worship and warfare as given to them by the hand of Moses **The Law of Trademarks, Tradenames and Unfair**
