Chapter Section Party Organization:

Organizing Political Parties Susan E. Scarrow, Paul D. Webb, Thomas Poguntke, 2017-06-23 Political party organizations play large roles in democracies yet their organizations differ widely and their statutes change much more frequently than constitutions or electoral laws How do these differences and these frequent changes affect the operation of democracy This book seeks to answer these questions by presenting a comprehensive overview of the state of party organization in nineteen contemporary democracies Using a unique new data collection the book's chapters test propositions about the reasons for variation and similarities across party organizations They find more evidence of within country similarity than of cross national patterns based on party ideology After exploring parties organizational differences the remaining chapters investigate the impact of these differences The volume considers a wide range of theories about how party organization may affect political life including the impact of party rules on the selection of female candidates the links between party decision processes and the stability of party programmes the connection between party finance sources and public trust in political parties and whether the strength of parties extra parliamentary organization affects the behaviour of their elected legislators Collectively these chapters help to advance comparative studies of elections and representation by inserting party institutions and party agency more firmly into the centre of such studies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

Party Organization and Activism in the American South Robert P. Steed, John A. Clark, Lewis Bowman, Charles D. Hadley, 2012-10-29 Maps the ways political parties remain vital components in the American political system especially in the eleven states in the South As Tocqueville noted more than 100 years ago No countries need associations more than those with a democratic social state Although some contemporary observers see a decline in associations especially in the political sphere the contributors in this volume argue not only that political parties remain an essential component of the American political system but also that grassroots political groups have revitalized the political process especially in the South Using data gathered from local party officials in the eleven southern states the authors examine such key issues as Who becomes involved in local party organizations and why How do parties recruit and retain workers What are the ideological and issue orientations of these activists How does intraparty factionalism affect local party organizations What is the connection between the party organization and its external environment The large regional database provides these contributors with the opportunity to extend the study of local party organization and activists thus

addressing some of the significant gaps in previous research The additional data enable them to clarify the nature of local party organizations and in a larger sense the role of the parties in the contemporary American political system **Notes on the Isthmus of Panama & Darien, Also on the River St. Juan, Lakes of Nicaragua, &c., with Reference to a Railroad and Canal for Joining the Atlantic and Pacific Oceans** George Peacock,1879 *The Vietnamese War* David W.
