

Comparació (After effects vs Combustion)

- * El principal competidor de After Effects és la versió de **Autodesk Combustion**.
- * S'assemblen força ja que coincideixen en els seu plantejament i filosofia ja que els dos treballen amb capes.
- * Una de les principals diferències és que amb **Ae** treballes directament sobre la línia de temps i en **Combustion** és necessari compondre i animar a través de mòduls. També disposa d'una línia de temps però és molt més complicat d'accedir-hi.
- * Tot i així Combustion té excel·lents resultats en la correcció del color, utilització de màscares.
