Resources in Education, 1997-07 *The Publishers' Circular and Booksellers' Record of British and Foreign Literature*, 1899 Translating for Museums, Galleries and Heritage Sites Robert Neather, 2024-07-01 In any museum gallery or heritage site that wishes to engage with foreign language visitors translation is essential. Providing texts in foreign languages whether for international visitors from different language cultures or for heritage speakers of local minority languages is centrally important in enabling these visitors to make sense of what they see displayed. Yet despite this awareness and a growing body of research in the field there has hitherto been little available in the way of practical training in this area of translation. This book aims to help fill that need. Translating for Museums, Galleries and Heritage Sites focuses on the translation of interpretive and information texts particularly in the museum context. After an initial introduction and an overview of key concepts in both museums and translation it looks at three broad groupings of texts from the museum text system: fixed labels and wall panels, leaflets and other portable learning resources and catalogues and guides including a section on websites. It concludes with a call to place translation centre stage in museum gallery and heritage practice. The book will be of use as a coursebook for students at both undergraduate and postgraduate levels and for practitioners in the sector and is designed to be suitable for both individual and class based learning. Therapeutic Metaphors for Children and the Child Within Joyce C. Mills, Richard J. Crowley, 2014-07-11 Winner of the 1988 Clark Vincent Award for an outstanding contribution to the profession through a literary work and translated into four languages the original edition of Therapeutic Metaphors for Children and the Child Within was considered a groundbreaking addition to the field of child and adolescent psychotherapy. The 1986 edition was the first and to this day the only book that solely intertwines the extraordinary foundational teachings and philosophies of Milton H. Erickson and creative healing approaches for children and adolescents. With resiliency at its core this revision now brings forward important topics related to neurobiology and cultural value of metaphor and play along with fresh case examples and creative activities to a new generation of mental health education and coaching professionals. **Printers' Ink**, 1916 Universalism versus Relativism in Language and Thought Rik Pinxten, 2011-09-15 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory, methods, findings and applications.
