Brain in the Vat Stories Adam Mac,2023-01-01 This thin volume is a collection of 10 of Adam Mac s brain in the vat BIV short fictions These stories take off from the clever thought experiments of philosophers who have long discoursed on mind brain duality and bring us to today when science and technology are taking over the narrative from science fiction to show us an emerging brave new taxonomy of life the Internet of self aware Things The first five stories are related and could be considered parts of a longer story The other five are independent of one another The Trans and Non-Binary Hero's Journey Valerie Estelle Frankel,Dean Leetal,2024-07-10 A brave heroine whose quest involves living her true gender A genderqueer knight who battles the transphobic court to save their prince Often fearing discovery the trans hero embarks on adventure aided by an accepting mentor and other allies and challenged by transphobic villains and sometimes uncomprehending family members Ultimately the trans hero triumphs finding love selfhood and affirmation This book adapts Joseph Campbell s classic pattern of comparative mythology and applies it to trans and non binary heroes in modern popular media who are traversing multiple worlds Analyzed are works for the screen such as Steven Universe The Matrix Sense8 and Sandman print materials such as DC and Marvel comics and television fantasy books and graphic novels from trans and non binary creators worldwide James Tiptree, Jr. Award Cumulative List Jeanne Gomoll,2019-10-25 This book lists all the Tiptree Award winners Tiptree honor lists and Tiptree long lists since the founding of the award in 1990 through 2019 when the awards name was changed to the Otherwise Award In addition the Tiptree retrospective awards presented in 1996 are listed Also included are ceremony site art prizes and songs with which the winners were serenaded during the award ceremonies **Focus On: 100 Most Popular American Science Fiction Films** Wikipedia contributors, **Invoking the Beyond:** Paul D. Collins,Phillip D. Collins,2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond Beyond

the Limit Rita Carla Francesca Monticelli, 2023-05-31 How far would you go to protect a secret The lifeless body of a woman wearing an evening dress is discovered in the party room of the wax museum Everything would suggest suicide but DCI Eric Shaw team chief at the Forensic Services of Scotland Yard who s investigating the scene with crime scene investigator Adele Pennington immediately notices a few similarities with the case of a serial killer nicknamed Plastic Surgeon closed three years ago with the arrest of Robert Graham Perhaps someone is emulating Graham or he had an accomplice but there is a third possibility that especially concerns Eric who being convinced of Graham s guilt tampered with the physical evidence to ensure his conviction What if he made a mistake and sent the wrong person to jail After eleven months and despite her reluctance he once again finds himself working with DI Miriam Leroux from the Murder Investigation Teams Now they have to race against time to follow the trail of the elusive murderer This is possibly Shaw s final major case before a promotion to superintendent The other contender for advancement being DCI George Jankowski a man who is not afraid to weed out the dirty secrets of others to get what he wants And Eric and his pupil hide an unspeakable secret The destiny of DCI Eric Shaw is about to be fulfilled This book is written in British English The final act of the trilogy The Detective Eric Shaw Trilogy Set between 2014 and 2017 the Detective Eric Shaw Trilogy has as the main character a detective chief inspector leading a forensic team assisting police detectives in their investigations at Scotland Yard DCI Shaw is facing a crucial period in his life Excessive dedication to work caused his marriage to fail and turned him into a cop ready to break more than one rule to satisfy his obsession with bringing criminals to justice His already precarious balance is undermined by a forensic investigator on his team who is much younger than him Adele Pennington for whom he has feelings that he considers inappropriate given the age difference and by a series of murders on which he investigates together with his god daughter DI Miriam Leroux They bear similarities to a 1994 cold case in which Eric himself rescued a seven year old girl from a crime scene the only witness to the massacre of her family In this psychological crime thriller series the border between investigation and crime becomes blurred in a story that isn t only about finding the culprit but rather observing how the main character decides to react to his shocking findings In a dark game of deception and suspense the reader will be thrown into modern day London and will end up wondering where the line between good and evil justice and revenge really is The trilogy includes the following novels 1 The Mentor 2 Syndrome 3 Beyond the Limit *Surrealism Beyond Borders* Stephanie D'Alessandro, Matthew Gale, 2021-10-04 *Surrealism Beyond Borders* challenges conventional narratives of a revolutionary artistic literary and philosophical movement Tracing Surrealism s influence and legacy from the 1920s to the late 1970s in places as geographically diverse as Colombia Czechoslovakia Egypt Japan Korea Mexico the Philippines Romania Syria Thailand and Turkey this publication includes more than 300 works of art in a variety of media by well known figures including Dal Ernst Kahlo Magritte and Mir as well as numerous artists who are less widely known Contributions from more than forty distinguished international scholars explore the network of Surrealist exchange and collaboration artists responses

to the challenges of social and political unrest and the experience of displacement and exile in the twentieth century The multiple narratives addressed in this expansive book move beyond the borders of history geography and nationality to provocatively redraw the map of Surrealism

Solidarity in Biomedicine and Beyond Barbara Prainsack,Alena Buyx,2017-01-19 In times of global economic and political crises the notion of solidarity is gaining new currency This book argues that a solidarity based perspective can help us to find new ways to address pressing problems Exemplified by three case studies from the field of biomedicine databases for health and disease research personalised healthcare and organ donation it explores how solidarity can make a difference in how we frame problems and in the policy solutions that we can offer

Embodying Contagion Sandra Becker,Megen de Bruin-Molé,Sara Polak,2021-03-15 Brings together new research that lays out the current state of contagion studies from the perspective of media studies monster studies and the medical humanities Offers fresh perspectives on contagion studies from disciplines such as the social sciences and the medical humanities introducing new methods of collaboration and avenues of research and demonstrating how these disciplines have already been working in parallel for several decades Covers a wide variety of international media and contexts including literature film television public policy and social networks Includes key recent case studies including public health documents and the popular Netflix series Santa Clarita Diet that have not yet been analysed anywhere else in the field Bucks the current trend of going back to plague literature and historical plagues in the search for meaning to address current and late 20th century epidemics diseases and monsters

Beyond Princess Culture Katherine A. Foss,2019 Beyond Princess Culture Gender and Children s Marketing explores the impact of a post princess space examining potential agency and empowerment in the products users while acknowledging that at least some alternatives continue to perpetuate components of the rigidly gender coded princess culture This book collectively critiques the commodification of the post princess child consumer through analysis of historical and contemporary toys video games clothing websites and other popular culture phenomena Guided by theories from feminist and gender studies Beyond Princess Culture demonstrates how the marketing of children s products has and continues to perpetuate and challenge hegemonic notions of gender race ethnicity ability and other positions of intersectionality as situated in the social economic and historical contexts

Black Holes Brian Cox,Jeff Forshaw,2023-03-28 By the star physicist and author of multiple 1 Sunday Times bestsellers a major and definitive narrative work on black holes and how they can help us understand the universe At the heart of our galaxy lies a monster so deadly it can bend space throwing vast jets of radiation millions of light years out into the cosmos Its kind were the very first inhabitants of the universe the black holes Today across the universe at the heart of every galaxy and dotted throughout mature black holes are creating chaos And in a quiet part of the universe the Swift satellite has picked up evidence of a gruesome death caused by one of these dark powers High energy X ray flares shooting out from deep within the Draco constellation are thought to be the dying cries of a white dwarf star being ripped apart by the

intense tides of a supermassive black hole heating it to millions of degrees as it is shredded at the event horizon They have the power to wipe out any of the universe's other inhabitants but no one has ever seen a black hole itself die But 1.8 billion light years away the LIGO instruments have recently detected something that could be the closest a black hole gets to death Gravitational waves given off as two enormous black holes merge together And now scientists think that these gravitational waves could be evidence of two black holes connecting to form a wormhole a link through space and time It seems outlandish but today's physicists are daring to think the unthinkable that black holes could connect us to another universe At their very heart black holes are also where Einstein's Theory of General Relativity is stretched in almost unimaginable ways revealing black holes as the key to our understanding of the fundamentals of our universe and perhaps all other universes Join Professors Brian Cox and Jeff Forshaw in exploring our universe's most mysterious inhabitants how they are formed why they are essential components of every galaxy including our own and what secrets they still hold waiting to be discovered

Curating and Politics Beyond the Curator Andrea Phillips, Reesa Greenberg, T. J. Demos, Cecilia Sjöholm, Ekaterina Degot', 2015 Ever since the nineteen nineties curatorial discourse has revolved around the figure of the professional curator Consequently curatorial politics is usually considered the direct result of a curator's deliberate acts and intentions Now however new institutional models and modes of exhibition practice together with key shifts in funding and collecting strategies have revealed aspects of curatorial politics over which the exhibition maker has little or no control The present volume presents a series of essays by noted art theorists and cultural scientists that go beyond the perspective of the individual curator to reveal these previously unexplored levels of curatorial politics
