**Studyguide: Preaching** Peter K. Stevenson, 2017-01-31 Peter Stevenson provides an introduction to the practice of preaching It is designed for people from various church traditions in the early stages of ministerial formation Preaching is a complex and challenging business requiring a demanding mixture of skills People listening to a sermon have the right to expect that a person who stands up to preach can interpret the Bible competently has a grasp of core Christian beliefs and believes what they preach They also expect someone who has the necessary range of communication skills to put the message across in an accessible way Such a range of expectations presents daunting challenges to the most experienced preacher Including practical exercises which could be used by individuals or by groups this book is suitable for introductory courses in preaching or for modules which consider preaching within an overall focus upon leading public worship *From Pew to Pulpit* Clifton F. Guthrie, 2005 A down to earth practical introduction to the ins and outs of preaching for lay preachers bivocational pastors and others newly arrived in the pulpit Recent years have seen a considerable increase in the amount of financial resources required to support a full time pastor in the local congregation In addition large numbers of full time seminary trained clergy are retiring without commensurate numbers of new clergy able to take their place As a result of these trends a large number of lay preachers and bivocational pastors have assumed the principal responsibility for filling the pulpit week by week in local churches Most of these individuals observes Clifton Guthrie can draw on a wealth of life experiences as well as strong intuitive skills in knowing what makes a good sermon having listened to them much of their lives What they often don't bring to the pulpit however is specific detailed instruction in the how to's of preaching That is precisely what this brief practical guide to preaching has to offer Written with the needs of those for whom preaching is not their sole or primary occupation in mind it begins by emphasizing what every preacher brings to the pulpit an idea of what makes a sermon particularly moving or memorable to them From there the book moves into short chapters on choosing an appropriate biblical text or sermon topic learning how to listen to one's first impressions of what a text means moving from text or topic to the sermon itself while keeping the listeners needs firmly in mind making thorough and engaging use of stories in the sermon and delivering with passion and conviction The book concludes with helpful suggestions for resources including Bibles commentaries other print resources and websites Handbook for Bible Study Lee J.
