*Who Decides Who Becomes a Teacher?* Julie Gorlewski,Eve Tuck,2018-11-09 Who Decides Who Becomes a Teacher extends the discussions and critiques of neoliberalism in education by examining the potential for Schools of Teacher Education to contest policies that are typical in K 12 schooling Drawing on a case study of faculty collaboration this edited volume reimagines teacher preparation programs as crucial sites of resistance to and refusal of unsound education practices and legislation This volume also reveals by example how education faculty can engage in collaborative scholarly work to investigate the anticipated and

unanticipated effects of policy initiatives on teaching and learning      **Understanding Teacher Education in Contentious Times** Catherine Cornbleth, 2013-10-30 Understanding Teacher Education in Contentious Times examines how public professional and private or corporate agencies operate to shape teacher education and possibilities for its improvement Teacher education programs particularly those leading to state certification or licensure are influenced not only by state regulations but also by required review and accreditation by an outside agency such as the National Council for the Accreditation of Teacher Education and are subject to various contextual pressures such as the cultures of the institutions that host them and their surrounding communities their potential student and employer markets strong individuals professional organizations history or tradition and increasingly external usually privately funded special interest corporations such as the National Council on Teacher Quality Unique among books on teacher education this volume interweaves in historical context including emerging trends the complex contexts in which practice and reform efforts take place and are supported or impeded      Teacher Education across Minority-Serving Institutions Emery Petchauer, Lynnette Mawhinney, 2017-03-21 The first of its kind Teacher Education across Minority Serving Institutions brings together innovative work from the family of institutions known as minority serving institutions Historically Black Colleges and Universities Tribal Colleges and Universities Hispanic Serving Institutions and Asian American and Native American Pacific Islander Serving Institutions The book moves beyond a singular focus on teacher racial diversity that has characterized scholarship and policy work in this area Instead it pushes for scholars to consider that racial diversity in teacher education is not simply an end in itself but is a means to accomplish other goals such as developing justice oriented and asset based pedagogies      *A Case for Change in Teacher Preparation* Julie Gorlewski, Amanda Winkelsas, Suzanne N. Rosenblith, Corrie Stone-Johnson, Elisabeth Etopio, David Gorlewski, Tiffany Karalis Noel, Bobbie Finocchio, Amanda Seccia, Ling Zhai, Erin Kearney, Xiufeng Liu, Nooshin Shafaei, Tanika Shedrick, 2021-08-19 Why are preservice teachers often told by veteran teachers to forget what you learned in teacher preparation programs Why is there a gap between pedagogical practices employed at schools and those taught at colleges and universities And why after evidence from countless studies are there still so few teachers of color working in our rapidly diversifying schools These questions are addressed in this book which describes a reconceptualized teacher preparation program based on a teacher residency model This model is grounded in three core beliefs first that teacher quality is a shared responsibility between universities and school districts second that all students have a right to high quality teachers who are as racially ethnically and linguistically diverse as the students they teach and third that for education to be transformative future educators must have the right balance of theoretical knowledge and practical experiences grounded in specific contexts Through a combination of rich description and qualitative and quantitative program data the authors make the case that university programs focused on the communities they serve can ensure more effective learner ready teachers who remain in the profession longer By providing a detailed blueprint for

program development the contents of this book will be of value and interest to educational leaders policy makers and researchers
