

About Education Source

It provides access to a large collection of full-text journals covering all levels of education from early childhood to higher education: includes full text for more than 2,000 journals; indexing and abstracts for more than 3,500 journals; citations for nearly 3.7 million articles, and more. Note that the EBSCOhost platform provides access to other databases: e.g. *SocINDEX* (full-text social sciences resources). See the “Choose Databases” link at the top of the database page if you wish to add another database to search along with *Education Source*.

How to access it

Education Source is available from on and off UWS campuses: access it from the UWS Library ‘One Search’ > Specialist Resources list or from the Library Website > Subject Support > *Education* or *Childhood Studies*. You will need to login with your UWS student Banner ID (or staff AD no.) and network password.

Searching the database

The database has been set to default to the Advanced Search screen. Type in your keyword(s) or phrase in the search box(es) and click on ‘Search’, leaving the “Select a Field” option as it is. For example:

Remember to try searching for different / alternative terms for your topic. Note that when you start typing words into the search box, drop down options for alternative and related search terms will appear and you can select one of those to search instead.

- About using **Boolean operators** (AND, OR, NOT) to broaden or narrow searches:
 - **AND:** to narrow a search = with all of the words
e.g. *outdoor education AND forest schools*
 - **OR:** to broaden a search = with at least one of the words
e.g. *outdoor education OR outdoor learning*
 - **NOT:** to eliminate unwanted words from a search = without the words. Take care if you use ‘not’ as you may exclude useful results.
e.g. *outdoor education NOT adventure*
- Enclose **phrases** within double quotation marks - e.g. *“formative assessment”*
- Use **truncation** to search for variant word endings or spellings: use an asterisk *
e.g. *assess** will find *assess, assessed, assesses, assessment* etc.

The database has been set to a default search of “Also search within the full text of the articles”. For a more precise search, which may help you get more relevant results, try using the drop-down menu options (these will vary depending on which EBSCOhost database you are searching). For example, you could try searching for your word(s) only within **Abstract** (article summary).
