Educators Guide To Jobs And Careers:

The Educator's Guide to Alternative Jobs & Careers Ronald L. Krannich, 1991 Careers of educators quickly plateau after only a few years in teaching or administration. Often facing low salaries and encountering career disappointments, many educators wish to explore new career opportunities outside education that will more fully use their many skills and enable them to pursue new career and monetary interests. Thousands of educators can and do make satisfying career changes each year. Here is the definitive guide for preparing educators at all levels for new careers. Specifying the career problems of educators and outlining numerous myths that prevent many from taking effective action. Moving Out of Education Ronald L. Krannich, William J. Banis, 1981 Based on the assumption that moving out of education and into new careers requires the use of specific concepts, methods, and skills, the problems of educational careers and basic concepts of career management are analyzed and proven methods for finding new jobs are outlined. The approach is adapted from the Ferrini and Parker career development model, which is a four-step process involving career assessment, exploration, skill development, and implementation. Attention is directed to the present and future problems facing individuals who plan to enter or stay in education, and survival and advancement strategies are outlined for those who wish to remain in education. Basic job search myths and myths relating to education and the marketability of educators are examined. After examining the role of faith, planning, and luck in the career planning process, 20 principles for conducting an effective job search campaign are presented, including advice concerning frauds and hucksters, alternatives to conducting the job search oneself, and the use of library resources. The importance of creating contingencies and redundancy throughout the job search process is also addressed. Additional information includes developing a functional job objective, writing a resume for outside education, conducting a long-range campaign, and acquiring employment with government agencies. Lists of skills, sample resumes, an SF 171 form, a bibliography, and subject and author indexes are appended. SW *101 Careers in Education* John Carlson, Richard Carlson, 2015-09-16 Education is a rewarding area of work that provides some of the most diverse career opportunities of any field. Written by educators with real-world knowledge of the profession, this information-packed guide provides the career explorer with concise information on the necessary skills, training, certification, licensure, compensation, and employment outlook for over 100 careers in a wide range of education settings. This book describes careers that range from working with very young children to positions in traditional K-12 schools to educating adults in organizational settings. It discusses careers suitable for those who enjoy working with people as well as careers for individuals who are more comfortable with information or ideas. A particularly useful feature is information about alternative paths to working in education for those with degrees in related service professions. Careers outside of traditional settings include work in adult education, independent education business, or government settings, community-based educational services, and part-time opportunities, to name a few. Special attention is paid to positions in STEM and educational technology, one of education's fastest-growing

careers and careers of leadership including management innovation and accountability The authors also provide a guide to self assessment that helps readers to learn about those careers that best match their interests and temperament Interviews with education professionals in a variety of arenas such as middle school foreign language teacher special education teacher Head Start coordinator and college athletic director offer an in depth look at different career opportunities Key Features Covers 101 careers including necessary skills training certification licensure compensation and employment outlook Includes career options for new teachers those changing careers within education and those seeking education as a second career Includes many career options outside of traditional school settings Presents interviews with 23 individuals in different educational positions Provides self assessment questions information pertaining to professional development and guidance on the job search process
